Two Carloads Of Stoves

The largest stock, as well as the lowest prices hereabouts. Buying in solid carloads means that we can buy for much less than the average dealer.

On account of the high price of coal all should be interested in a stove that will burn coal or wood economically.

A stove that will get every particle of heat out of the coal, as it consumes even the smoke and gas, leaving only a fine ash; not only that, but it burns soft coal as cleanly as hard and there is no smoke or gas escaping into the room when you open the door to put in fresh coal. Nor is the fire smothered when new coal is put in. This stove is called the
