Two Carloads of Stoves

On account of the high cost and scarcity of coal, many people are discarding their old-style wasteful heaters and putting in the

Renown Underfeed

which soon saves its cost in saving coal. The Renown Underfeed burns coal in a new way as applied to stoves. It burns at a steady heat, consuming the gas, soot and smoke, getting every particle of heat out of the coal, leaving only a fine ash.

With it you can burn soft coal as cleanly as hard. A big line of heaters from \$12.50 up; also Ranges, Combination Coal and Gas Stoves, etc. Large carload purchases and low expense means a big saving here on stoves. For advertising purposes we are selling a big stock of

Comforters and Blankets

at very low prices. Large, full-size Bed Blankets \$2.39.

Whether one piece or a complete outfit, our no rent, low expense warehouse salesrooms are the places where

Furniture, Rugs, Etc.

are sold at the lowest prices.
