WHEN you see this famous trade-mark, think a minute! Think of the delicious taste of a slice of fresh toasted bread!

That's the real idea back of the success of Lucky Strike cigarettes. Toasting improves tobacco just as well as bread. And that's a lot.

Try a Lucky Strike cigarette—

It's toasted

Holly has an American Legion post. A number of cases of diphtheria are reported in the city of Pontiac.

Upon being asked if he had anything to say, Garner stated that disregarding the verdict of the jury, he still maintained his innocence.

The annual meeting of the Oakland County O. E. S. will be held at Birmingham on Friday, October 17th, afternoon and evening sessions.

Detroit is to have a new 23-story hotel, to cost \$7,000,000. The new hotel will be located on Grand Circus park east and will be known as the Detroit-Biltmore.

More than 400 known dead mark the trail of the Texas hurricane and tidal wave of last week, and it is estimated that this number will be doubled when all have been recovered.

In shooting at a duck at Island Lake Sunday morning Woodward Lawson, of Detroit, instantly killed his 30-year-old wife, the full charge of the gun striking her in the back of the head.

At the end of the baseball season in Holly last week the local club has \$600,000 to its credit. The money will probably be used for the purchase of an athletic field in that village.

Robert Garner, member of the Oakland County Road Commission, was adjudged guilty of a serious offense against a 15-year-old girl, Virginia Stockwell, of Pontiac, by a circuit court jury last Friday afternoon, after a four-day trial, after less than two hours' deliberation. Sentence, which was pronounced last Monday gives Garner from two and one-half to five

years in Jackson; as was also Charles A. Larson and David Hunt, convicted of the same offense.

"City people generally 'have the wrong idea of the farmer,' said C. B. Cook, county agricultural agent, recently. 'It is thought by many, that the average farmer is wealthy and hires people to do his work. This isn't the case at all. There isn't any class that gets less out of life than the farmer, and for that reason farmers are flocking to the cities to secure \$9 and \$10 a day for about half the work they would do on the farm. This can't go on, because people cannot live without food. Either the farms will have to be taken over and operated as business propositions by big corporations, or the farmers will have to organize and work together to obtain better conditions. The first course is efficient, but the spirit of country life is sacrificed. I think Oakland county farmers are going to get together and solve this problem among themselves.'"

Better Berth for Bossie.

The American dairy cow, beauty that she is and has been for years, has never made very much of a reputation in Europe until the war destroyed so many of the native milk producers. Now, the American dairy cow is crossing the ocean pretty freely, and the United States Department of Agriculture, largely for her benefit, has revised its regulations governing the inspection, humane handling, and safe transport of export animals. The regulations, in the first place, were fixed mainly for beef cattle. A dairy cow that is to live her life out and bear the responsible part in the upbringings of a human family requires more careful handling than an animal that is to be slaughtered. Consequently better arrangements have been made for stalls, an adequate number of attendants is stipulated and more careful handling in general is required.
