OWN A HOME

Many families would gladly heed the advice to own a home, if they only had the money to make a purchase.

Many other families are accumulating the necessary funds in thrift accounts. It is remarkable how quickly these "home" funds grow when deposits are made systematically. The interest we add helps materially to reach the goal.

ALLENBY STOPS CRAFT OF TURK

Persecution of Armenians and Confiscation of Property Prevented by English Officer.

The most arbitrary city boss in the world, it seems safe to say, as well as the most unscrupulous politician of modern times, has turned up in Alintab, Armenia, to judge from an official report recently made by Major Stephen Trowbridge, under Gen. Edmund H. H. Allenby's orders.

He is a Turk named Besim Bey. Until the Near East Relief agents stopped him, he practiced upon the terrified Armenians such forms of super-graft as might well make every other corrupt politician in the world green with envy, and such cruelties as make all other heartless rulers, from Nero down, seem sweet and gentle characters.

His office was that of Municipal Chief Agent of Alintab; but, as all dishonest office-holders know, it isn't the job that matters, but the super-plunge one gets with it. Besim Bey plucked Armenians with both hands, night or day.

Even inspired city bosses have their day. Besim Bey's came when the Near East Relief agents found that no amount of Armenian relief work could be done in that city while such conditions of terror existed. General MacAndrew ordered the arrest and removal of the worst Turks in the ring that ruled this city, and Besim Bey qualified, usual, for first place.

Have you looked at the wants.

Which is the Best Phonograph?

You don't need to go to a store. Just look the different ads over. Some makers praise their Phonograph's horn, some their reproducers, others their cabinet work, some their low prices, etc., etc. There is only one maker who advertises that his phonograph will Re-Create music exactly like the original and that maker is THOMAS A. EDISON and his recently discovered phonograph is called

The New Edison

Not only does he advertise it, but the tone tests to prove it is being held in Detroit and all over the country where artists sing with their own records on the New Edison, and critical audiences are unable to detect any difference. And yet you will discuss the question, "Which is the best Phonograph?"

Perfection

What more can you ask of a Phonograph than that it Re-Creates music perfectly. No other Phonograph maker dare even make this claim. What is there left to discuss. Nothing. The serious matter is your being able to get a New Edison before Christmas, if you don't place your order at once. Some models are already over-sold. We offer very easy terms of payment and expert New Edison service.
