A savings account is the first step to wealth. It enables a man to save his money and at the same time it is earning money for him. This bank will not only help you save money but it will pay you interest—compound interest has made more millions than speculation.

## Here is a Practical Outfit

This Case 15-27 H. P. Oil Tractor pulls three plows in hard plowing—four plows under favorable conditions. It has 25 per cent. reserve power. It burns kerosene successfully and economically. All gears are cut-splined and run in oil. The one-piece main frame has the permanent alignment of all gears, shafts and bearings.

It is also adaptable for all kinds of belt work. It easily handles a Case 20x46 threshing machine with wind stacker and feeder. Its pulley is properly placed for convenient "lifting-up" to a driven machine.

We recommend the 3-bottom automatic lift Grand Detour plow for use with the 15-27 tractor. This makes an ideal combination for the average size farm. It is neither too large nor too small. It can plow from 9 to 14 acres in ten hours.

The plow is light, but owing to its simple construction it is strong and durable.

We will be glad to explain this rig in detail. Write or call us today. Investigate before you buy.

## Auction Sale.

Having decided to go out of the dairy business, I will sell my entire herd of 14 High Grade Holstein Cows—8 x w milk, some with Galves by side; all from 3 to 5 years old, at auction on Friday, January 21, at 10 o'clock, at my premises 2 miles west of Farmington village, or 3 1-4 miles west of Steven's Stop, on D. U. R. Harry W. Bachelor, Proprietor, Harry Robinson, and John Wedow, auctioneers.

"I believe every business man ought to have an ad in the local paper every week if it isn't anything more than a card with his name and business," said a business man in our hearing and one who practices as he preaches. No one knows the final destination of the papers that go out from the country print shop and it frequently happens that they fall into the hands of people who form their estimate of the town's desirability of its business enterprise and activities by sizing up the "ads" in its columns. —Ex.

## The Fordson Tractor

We have already received orders for Fordson tractors for spring delivery. The indications are that there will be a spring demand for double the number of Fordsons that it will be possible to obtain. We are unable to get single tractor without a buyer's order, that is, it is impossible for us to buy tractors and stock them preparatory for spring sale. We must have your order now or soon in order that we may get your Fordson and have it ready for you when you want it, otherwise a delay or possible disappointment in delivery is inevitable.

ORDER YOUR FORDSON TRACTOR NOW!

THE UNIVERSAL CAR

## Buy Your Ford Car Now

Spring deliveries of Ford cars have never been certain, and they should not be depended upon. Demand has always been greater for Ford cars than the supply or production. So, if you would be sure of having a Ford car, buy it now while deliveries are possible. Don't wait—even next month is an uncertainty.

Only a limited, specified number of cars has been allotted to this territory. That allotment cannot be increased, because the demand all over the country is greater than the supply or production. Get your order in now, and you will be one of those who are sure of a Ford car out of our allotment.

It's first come—first served. All orders are filled in rotation. So if you would be forehanded, if you would be certain of having a Ford car when you want it, then you will buy your Ford car now. A signed order with us is your protection. It is the result of the wisdom of looking ahead.

If you buy a Ford car now, don't think you have to "store" it. The Ford is a car made to serve its own for business or pleasure throughout the entire year. Ford owners have long since come to recognize the fact. The is no longer popular to "lay-up" your car for the winter. Buy a Ford now, and use it now.
