Start Right

We have never known a young man to fail in life who saved his money.

Saving is the secret of success and an opportunity is worthless unless you are prepared to grasp it.

A savings account started now may mean much to you later in life. It's worth trying—you'll never regret it.

Why Discriminating Buyers Choose the A. B. C. Super Electric

BECAUSE,

it employs the most thoroughly practical, efficient and economical washing principle. Its cylinder reverses after each revolution. It is the only washer that combines every advantage of both the "cylinder" and the "oscillating" types of washing machines.

BECAUSE,

it is the only full cabinet cylinder washer.

BECAUSE,

it is the absolutely safe washer. All moving parts are enclosed, thereby avoiding every possibility of soiling or tearing clothes, or of injury to operator, servants, children or household pets.

BECAUSE,

its electrically-operated wringer swings all around and locks in any desired position.

BECAUSE,

it washes clothes quicker than any other washer.

BECAUSE,

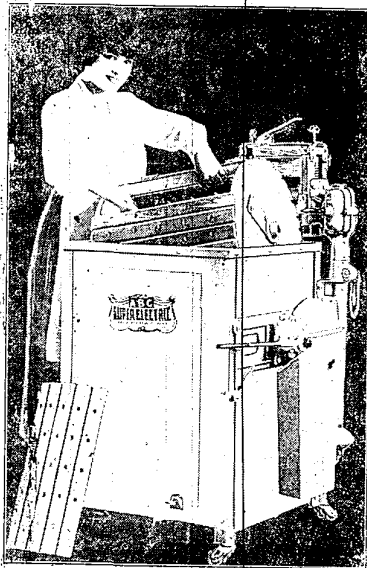

it is the most quiet-running washer; no noise, shock or jar when cylinder reverses.

BECAUSE,

its the most simple in construction—the fewest number of moving parts.

BECAUSE,

it has a 50 per cent oversize motor—1-4 horse power; most other makes use 1-6 h. p.
