THIS IS LEONARD WOOD

*The Man Who Won the Unqualified
Endorsement of Theodore Roosevelt,
Greatest American of His Time*

—and the man who should get your vote in the Primaries, April 5th

A vote for Leonard Wood is a vote for Roosevelt's principles, for the very same things that Roosevelt would be advocating if he were alive today.

A vote for Wood is a vote for a candidate whose backers have pledged themselves to see that the voice of the people of Michigan is heard in the state and national conventions. Wood is fighting for the nomination, not merely to gather up delegates to be transferred to some other candidate when the party leaders decide that the psychological moment has arrived.

General Wood, in his public utterances, has shown a thorough understanding of the farmer's problems and a warm sympathy for the farmer. He says: "Our stability rests largely in the agricultural population. The red flag never flies over the house of a farmer who owns his farm. If the American farmer had not played the game as they did, we would have lost the war, because we would not have been able to feed our Allies in the field as well as ourselves. If the American farmer had struck, the Germans would have won the war. The farmer sent their sons to war, and in spite of the shortages of labor they, by tremendously increasing their efforts, gave the world the biggest crop in history. Agriculture is not only the principal source of our wealth, it is the backbone of our most stable citizenship."

"We must have a department of agriculture conducted for the farmer by men who really know farming from the furrow to the crop. It should be the intention of the national government at Washington to make farming cond. Here such that there would be no tenant farms and more owned farms."

Theodore Roosevelt said of Leonard Wood: "He has made all good Americans his debtors by what he has done."
