Would You Write This?

ONLY those who have suffered the misery and torture of kidney trouble and have found their way back to health can appreciate the feeling of gratitude and desire to help others sufferer that caused Mr. E. A. Shanholzer, Konantz, Colo., to write the following letter to Foley & Co.:

"I am writing this to those who need it. I was troubled with my kidneys and bladder for some time. I could not walk or ride, and I had to get up as often as twenty times in one night. A man asked me if I ever tried Foley Kidney Pills. He persuaded me to try a 50c bottle and to my surprise I found they helped me wonderfully. I was weak and gas, dollar bottle, and then another, and I do believe they will make a well man out of me. Sincerely yours,"

If any reader of the above letter is suffering as the writer was suffering, and profits by Mr. Shanholzer's action, will be not feel it his duty to pass the helpful message along?

Foley Kidney Pills

Help overworked, weak or diseased kidneys and bladder by their tonic, invigorating, healing action. They have been used successfully for kidney trouble and bladder ailments by men and women for many years. They are made of the highest-grade medicinal ingredients and contain no habit-forming drugs.

Kidney trouble manifests itself by various symptoms—backache, rheumatic pains, lumbago, stiffness of joints, dizziness, sore muscles, dim vision, spots before the eyes, etc.—the result of impurities and poisons in the blood, matter entering the blood stream because the kidneys are not doing their proper work of eliminating the waste. If you find these elements in keeping the blood stream clean, preventing kidney trouble, why not try Foley Kidney Pills?

Dust Fowls In The Morning

Dust the fowls with sodium fluoride to get rid of lice. Fowls with young chickens it is particularly important that the dusting be done early in the morning on a bright day. If it is done later in the day or in bad weather the chicks while snuggling under the hen are likely to get enough to injure them severely. If dusting is done in the morning in fair weather, the hen will not hover the chicks enough to injure them un-

til the injurious quality of the powder has been largely dissipated.

Setting Hens.

Usually several hens can be set with good results in one large room or loft, providing each with feed, water, and dust bath, so that they may leave the nests and return at will. The nests should be placed several feet apart to avoid interference with one another. Straw or hay, not chaff, makes the best nesting material.
