**Her Preference.**  
The man next door had a disheveled mustache while father's face was smooth. And Mary Ellen looked on the neighbor with something akin to awe. Also a longing came into her heart. And one day she voiced it.

Father was getting ready to shave when Mary Ellen happened to come into the room. She put out a protesting little hand. "Oh, daddy, don't shave," she begged. "I would like to have a whisker daddy."

## URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a Glass of Salts If Your Back Hurts or Bladder Bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes, rhubarb, lemon juice, combined with soda, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in uric acid, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful after-dinner little water-drink.

A pessimist and an optimist were discussing life from their different viewpoints. "I really believe," said the former, "that I could make a better world myself."

"Sure!" returned the optimist. "That's what we are here for. Now, let us get to work and do it!"—Boston Transcript.
