Your Duty To Your Child

One of the first things every parent should do, when a child is born is to start a savings account in its name and keep adding to it—so that when the child reaches maturity there will be a fund to give it an education or start it out in life. The Cost of Upkeep

A run-down business is like a dilapidated house, the cost of putting either one back on its feet is often greater than it would be to start all over again.

To let the telephone run down, in quality of service or in mechanical equipment, would mean far more than a loss to the telephone company, it would mean a loss in business to every user of the telephone.

WE MUST HAVE YOUR SUPPORT IF YOU ARE TO HAVE THE TELEPHONE

increased cost of living.

The Telephone Company is working hard to make ends meet, to keep its property in proper operating condition—and to pay wages which will secure the most intelligent and loyal service for the telephone user. YOUR loyalty to the telephone will make it easier for us to serve you.

Judge the ESSEX, not by the lightweight standards that you have known, but by the much more exacting requirements of the large costly cars. Measure it by the highest standards of performance and fine quality rather than by its moderate price.

You, too, will find the appeal that has won thirty thousand.
