

Sure Relief

Not Likely
"Why are you crying so bitterly?" sympathically asked the presiding elder. "I hope you two little fellows haven't been fighting?"
"You bet yer life we ain't!" replied young Bearcat Johnson of Rumpus Ridge. "If we had there wouldn't be but one of us crying!"—Kansas City Star.

ASPIRIN

Name "Bayer" on Genuine

"Bayer Tablets of Aspirin" is genuine Aspirin proved safe by millions and prescribed by physicians for over twenty years. Accept only an unbroken "Bayer package" which contains proper directions to relieve Headache, Toothache, Rheumatism, Neuralgia, Rheumatism, Colds and Pains. Handy tin boxes of 12 tablets cost few cents. Dispensaries also sell larger "Bayer packages." Aspirin is the trade mark Bayer Manufacture Monoceltdeser of Salfordland.—Adv.

Had a Clean Mouth.
Little Johnnie, while hunching with his aunt one evening, shocked that estimable lady by licking his spoon clean before putting it in the sugar bowl.
"Johnnie," remonstrated auntie, "stop that is a dirty thing to do!"
"Oh, don't worry, nuptie! It's all right. My mouth is just as clean as anything. Ma washed it out with soap this morning."

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kline's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kline & Co., Birmingham, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Would Be Handy Some Day.
Earl enjoyed listening to grandpa's stories of when he was a boy. One day a small cut in the barn kicked at him, slightly bruising his cheek.
"Why," his mamma said, "that's a queer way to get hurt."
Earl answered quickly: "Oh, a fellow has to have some 'spicence' to tell his grandchildren."

Indefinite.
"Appropos of the hunt tomorrow, I will give you a good pointer."
"Hold on a minute, do you mean a hint or a dog?"

AIM AND VALUE OF FARM CLUBS

One of Important Features of Extension Work Conducted by Relation Service.

INSTRUCT GIRLS AND BOYS

Larger Yields Have Been Obtained, Better Pigs Have Been Raised, and Finer Cattle, Dairy and Beef Have Been Raised.

(By E. T. MEREDITH, Secretary of Agriculture.)

Boys' and Girls' club work is one of the important features of the agricultural extension work conducted by the station service, United States department of agriculture, in cooperation with the state agricultural colleges and local agencies for the purpose of improving agricultural conditions and practices throughout the country. These clubs are organized to improve farm and home practices by instructing the boys in correct agricultural methods and the girls in home-making; to assist them in demonstrating these methods for the improve-

A Pig Club Girl.

ment of the farm and home; to aid in the development of co-operation in the family and in the community; to create a more favorable attitude toward the business of farming and home-making by encouraging property ownership and the feeling of partnership; and to make rural life more attractive by providing organization which tends to diminish isolation and develop leadership.

Benefits Derived.

These objects are in process of attainment. Wherever club work has been pushed by our agents, larger yields have been obtained, better pigs have been raised and finer cattle, dairy and beef, have been grown. The motto of the clubs is "To Make the Best Better." Registered animals are more common where only a few years ago they were unknown, and there is a systematic effort to cull out scrub live stock and poultry. Large yields of crops have been made by club members on lands which were considered worthless, and little girls are trying with the best packers in culling and preserving fruits and vegetables, and are becoming a potent factor in helping to make the farm home more attractive and enjoyable.

The average yield per acre made by club members in the growing of field crops is two to three times as large as the average yields made in the states in which the members are located. Many people, seeing a boy or girl here and there engaged in club work, do not realize the value of the products produced by these young folk in the aggregate. In 1918, while under the stress of war and responding to an appeal made to club members in the furrows "over here" to help feed the boys in the trenches "over there," the records in the office show that these young people produced food and feed to the value of more than \$20,000,000.

Helps Boys and Girls.

The money value of the products of club members is only a small part of the value of club work. Many boys and girls have had their vision of life enlarged by club membership. Many have taken and are taking college training. The agricultural colleges of the country, especially have profited in enrollment from the clubs. Many boys and girls have made their own money to defray their college expenses in club activities. Many after graduation have returned to the farms or have engaged in extension work as county agents. Rural life has been greatly enriched in recent years by the trained leadership obtained from agricultural clubs. The results obtained in this work justify many times the expenditures made in securing them and appeal strongly for a larger development of this useful work.

NEED WINDBREAK IN SUMMER

Protection Given to Garden and Fruit Plantation From Hot South-west Winds.

A farm needs a windbreak in summer as much as in winter. Did you ever notice the difference in the garden and fruit plantation on two farms, one sheltered from the hot southwest wind and the other exposed to it? The windbreak pays in dollars and cents.

INFERIOR SALT WILL RUIN COUNTRY HIDES

Hair is So Set That It Cannot Be Removed Properly.

Incident Illustrates Importance of Attention to Details in Handling and Curing—Alum is Especially Objectionable.

(Prepared by the United States Department of Agriculture.)

Hides should be salted only with clean, pure salt, free from alum, according to a recent statement of the bureau of chemistry. This bureau is making a study of the best methods for skinning farm animals and curing hides in order to produce a high-grade leather. Salt containing alum partly tans the hide and sets the hair so that it cannot be removed. Hides which cannot be unhaird properly bring a loss to the tanner and produce him in future purchases against hides from the same source.

Tanners recently submitted to the bureau of chemistry grey salted hides which could not be unhaird after lying in the usual way, in order to find out the cause. An examination showed that on the basis of the grey hide unhaird spots contained 0.8 per cent of alumina and the portions where the hair was unhaird contained 1.20 per cent of alumina. The portions of the hide which contained 0.8 per cent alumina unhaird with difficulty, while the portions containing 1.20 per cent could not be unhaird even on the beam. An inferior salt containing alum had been used in salting the hides and had set the hair.

This incident illustrates the importance of attention to details in the handling and curing of hides and skins. Farmers, country butchers and dealers are advised by the department to use only clean, pure salt in salting hides. The presence of alum in salt is especially objectionable and as little as five per cent in the salt can be detected usually by its bitter taste. Farmers' bulletin No. 1035, which gives detailed directions for skinning, curing and marketing country hides and skins, may be obtained upon application to the United States department of agriculture, Washington, D. C.

VEGETABLES ARE IMPORTANT

Most Intensively Worked Field on Farm is Garden—Irish Potatoes Are Leaders.

(Prepared by the United States Department of Agriculture.)

The most intensively worked field on the farm is the garden.

For convenience it is usually located close to the dwelling. Many farmers have, in addition, truck patches in

Garden Should Be Located Conveniently to Dwelling.

fields where inter-tilled crops, such as corn, are grown. These patches are conveniently plowed, prepared, and cultivated at the same time the ground is worked for the regular crop. In the truck patch potatoes, sweet corn, cabbage, tomatoes, squash and cucumbers are usually raised.

Vegetables constitute only about 11 per cent (in value) of all food consumed by farmers, and about 80 per cent of the vegetables are furnished by the farm. In general, Irish potatoes are easily the most important vegetable raised, constituting nearly one-half of the value of vegetables consumed. In the South, however, about twice as many sweet potatoes as Irish potatoes are used.

SILLO WILL PRESERVE CROPS

Alfalfa, Cane, Kafir, Corn and Other Forage May Be Saved by Storing in Hugs.

Rainy weather at the time clover or alfalfa should be cut will often make it impossible to cure the forage and produce hay of much value. Preloading of rain in the fall will prevent the curing of such forage as cane, kafir, corn, millet, and a late cutting of alfalfa. A silo will save all this feed and preserve it in excellent shape.

GIVE TEAM SOME ATTENTION

During Exceedingly Warm Weather Horses or Mules Are Liable to Get Overheated.

Those who cultivate crops when the weather is exceedingly warm should notice the team. It would be a very unfortunate matter to allow the horses or mules to become too warm. This might injure the animals permanently.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store, apply a few drops upon the corn or callus. In a few days it stops hurting, then shortly thereafter the corn or callus falls off, right off, root and all, without one bit of pain or soreness. Truly! No humbug!—Adv.

True friends are those who feel like kicking—because they point out our faults.

Free speech is responsible for most of the ill feeling.

Mostly Wind.

Schreecham—He was a wise poet who remarked that in this world a man must be either anvil or hammer. Peacham—Oh, I don't know. It seems that most of them are merely bellows.—Edinburgh Scotsman.

Ever Meet Him?
"I hear a lot about him but I've never met him."
"Who?"
"The man who never used to drink before the country went dry, but now drinks like a fish. Every rum hound seems to know at least two of him."

Kept New Doll for "Company" Days.
Nancy, my little niece's old doll, was looking under the horse for vent, so I sent a dolly dressed dolly to take her place. A week after the presentation of the new doll I called at my sister's and found Betty playing with Nancy, her old doll. On asking her what had become of the new one, she replied: "Oh, she's nice for company days, but I like Nancy for plain days."—Exchange.

Strictly Belonged to Him.
I was having the children help me in straightening up the living room. I had said I would do certain parts of the tidying up and that Edwin could do certain things and then Betty Betty could do some of the little work. However, I feared Betty fussing with Edwin to let her do something I had assigned to him and he said: "Why, of course, you can't. That is a little sized work and I'm the only middle sized person here to do it."—Exchange.

PAINS NEARLY DOUBLED ME UP

Nothing Helped Me Until I Took Lydia E. Pinkham's Vegetable Compound.

Wyandotte, Mich.—"For the last two years I have doctored off and on with pain without help. I have had pains every month as bad as that I would nearly double up. Sometimes I could not sleep a room without stopping to rest, and everything I ate upset my stomach. Three years ago I lost a child and suffered so badly that I was out of my head at times. My bowels did not move for days and I could not eat without suffering. The doctor could help me and one day I told my husband that I would never see him any longer and sent him to the drug-store to get a bottle of Lydia E. Pinkham's Vegetable Compound and three bottles of the doctor's medicine. After taking three bottles of Vegetable Compound and using two bottles of Lydia E. Pinkham's Sanative Wash I could do my own housework. If it had not been for your medicine I don't know where I would be today and I can never without a bottle of it in the house. You may publish this if you like that it may help some other woman." MRS. MARY STROVER, 120 Orange St., Wyandotte, Mich.

Are You Human?

A little baby. A little child. Don't they appeal to you? Doesn't your heart yearn to pick them up, to cuddle them close to you, to shield them from all harm? sure it does else you're not human. Being human you love them. Their very helplessness makes you reach out in all your strength to aid them. In health there's no flower so beautiful. In illness there's no night so black.

Save them then. Use every precaution. Take no chance. When sickness comes, as sickness will, remember its just a baby, just a child and if the Physician isn't at hand don't try some remedy that you may have around the house for your own use. Fletcher's Castoria was made especially for babies' ills and you can use it with perfect safety as any doctor will tell you. Keep it in the house.

Children Cry For Fletcher's CASTORIA

Do the People Know?

Do you know why you are asked to call for Fletcher's Castoria when you want a child's remedy? why you must insist on Fletcher's? For years we have been explaining how the popularity of Fletcher's Castoria has brought out innumerable imitations, substitutes at 12 counterfeiters.

To protect the babies: to shield the homes and in defense of generations to come we appeal to the better judgment of parents to insist on having Fletcher's Castoria when in need of a child's medicine. And remember above all things that a child's medicine is made for children—a medicine prepared for grown-ups is not interchangeable. A baby's food for a baby. And a baby's medicine is just as essential for the baby.

The Castoria Recipe (it's on every wrapper) has been prepared by the same hands in the same manner for so many years that the signature of Chas. H. Fletcher and perfection in the product are synonymous.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS

Bears the Signature of

THE CENTAUR COMPANY, NEW YORK CITY.

Favorite Sons.

"I understand you are mentioned as a favorite son."
"Entirely against my will," answered Senator Sorghum. "Most of the favorite sons I have known have had about as much chance of growing up to be real fighters as the teachers' pets in the old days at school."

FRECKLES

Now is the time to Get Rid of These Unlucky Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these blemishes. Simply get an ounce of Othine—double strength—soon as you are up and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is a condition more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

For the double strength of Othine, as this is sold under guarantee of money back if it fails to remove freckles.

Leap Year Stuff.
Miss Mancheson—Don't you think you could learn to love me?
Mr. Starchy—I love you, but I don't like you.

Miss Mancheson—Fine! Marry me and you'll have to work twice as much.

Good Enough for a Girl.

A father, a mother, says a British weekly, have brought their month-old twins to any San London church to be christened. All went well until the pastor asked: "And what is this child's name?"

The father, a new himself up and replied: "Half Pershing Poch Marne Mons Lloyd Gell, de Chevenne Jones." The pastor replied: "Then, taking a deep breath, he turned to the mother who was holding the other child. And the name of the?" he asked.

The meek little woman smoothed her dress and whispered, "Maud."

Analogy.
"Pop, wasn't a soldier who carried a lance, called a lancer?"
"Yes, son."

"Then a soldier who carries a lance, a pikeman?"
