

INDEPENDENCE DAY

The Fourth of July is our most universally observed national holiday.

Independence is a priceless thing for a people. It is scarcely less important for the individual.

None of us are independent until we are free from debt and have a little balance in the bank against future needs.

Right now is a good time to add to your account if you have one.

If you have not secured one of our savings-books, delay no longer. Call today for the book we have laid aside for you.

All deposits made by July 5th will draw interest at 4 per cent from July 1st.

motored to Pittsford, near Hills-
dale, Wednesday to visit John
Scott and family.

Miss Minnie Smith attended the
Northwestern high school com-
mencement exercises in Detroit,
Wednesday evening, her niece,
Miss Irene Conroy, graduating
from that class.

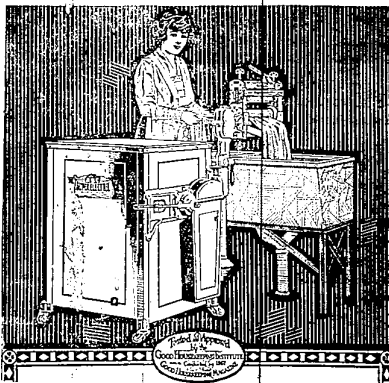

A-B-C

THE A-B-C DIPS, SQUEEZES
AND ALSO ROCKS THE
CLOTHES CLEAN!

Other electric washers wash but
one way. Either they lift, dip,
squeeze and rinse the fabrics in
a tub of sudsy water—or they
rock them to and fro.

While both methods are good,
the A-B-C Electric Laundress
relies entirely on neither one.
Instead it washes Both Ways!
This ends discussion. For in
this A-B-C you get a sum of ad-
vantages of all other ways.
Call and see how simply this
combined washing action is
effected in the A-B-C. Note how
quietly and smoothly it washes.

Next washday—let the A-B-C
Electric Laundress do your
wash without charge. Call and
arrange for a demonstration.

GET THE BEST—ITS A-B-C.

Long Life-KOKOMO-Tires and Tubes

Put them on your fivver and let the other fellow worry. You will feel that you are going in comfort and coming back without trouble. The tire with the clean white tread. You need a spare tire anyway, take a KOKOMO tire and tube with you on your vacation and you will enjoy it better.

Farmers!!

When you are in ask for a block of CATTLE SALT—Fifty pounds of clear, hard salt for 60 cents—Put it in the pasture and let the cattle help themselves.

REMEMBER---

Fishing days are here. We carry a full line of Fishing Necessities. Everything but the worms and the time—You furnish them. Get some of our Poles, Hooks, Lines and Baits and fill your basket.

MANAGER

WILBER HUGHES, Clerk.

Guarding You Day and Night

Your telephone is your faithful guardian standing
at your call in case of fire or other disaster, in time of
sickness, in your business relations or your work,
ready for instant duty at your home or at your labor.
Would you be without it?

Would you wish to deprive yourself, your loved
ones or your business interests of this faithful servant?
He must be equipped with the best instruments of
his service for your best protection
and your business or social benefit.

WE MUST HAVE
YOUR SUPPORT
IF YOU ARE
TO HAVE THE
TELEPHONE

But the cost of everything that
goes into his equipment is much greater
than ever before. The expense of
keeping him efficiently equipped and
armed to serve you is growing rapidly.

With what you are paying him he is unable to meet
these costs or to properly equip for your bigger future
or the industrial growth of your community.

MICHIGAN STATE TELEPHONE COMPANY

The Essex Motor
is Patented

The Essex motor, too, is patented. The same men build
it who build the Super-Six.

It delivers three times the power of standard motors its
size. It is one of the smallest automobile motors. Yet
it yields 45 H. P. Conventional motors of this size de-
liver but 30 H. P., at limit.

Already the Essex stands proved.

It has set every official stock record for cars of its
piston displacement from 1 to 50 hours.

It has set the world's 50-hour endurance record of 3037
miles. It holds the world's 24-hour road record of 1061
miles. These regardless of size, weight, cylinders or
type. It holds the one hour speed record of 69 miles for
its classification.

Possibly you could be content with less speed than the
Essex gives. But endurance is a satisfaction that is
progressive. Lack of it means an increasing accumu-
lation of trouble and dissatisfaction.
