

If your water is hard and rusty, corrodes pipes, stains fixtures, tastes bad - then nothing in a can, box or bottle can correct it. Culligan can.

WE FILTER AND SOFTEN YOUR WATER BEFORE IT ENTERS YOUR HOUSEHOLD PLUMBING.

With soft water, bathing the skin is smoother and cleaner because none of the soap is converted to film or curd by water hardness. You'll love it for sure.

Leading washing machine makers recommend the use of soft water. And you can use non-phosphate soaps and get better, whiter washing results.

By hand or machine - dishes, glassware and silver wash spot free, sanitary clean - and they dry to a gleaming sparkle without linting. Try it and see.

Little touches

It's the little touches that count and add beauty to a garden spot. Red and white begonias at the base of a tree are an inexpensive way to add color to the yard - front or back.
