

# **HARBOR COVE INTRODUCES TIMESHARING OWNERSHIP TO NORTHERN MICHIGAN**

**A** new concept in resort home ownership is being offered in quality resorts around the country; and, in many parts of the world. The concept is called "TIMESHARING OWNERSHIP" and is now offered for the first time in Michigan by Harbor Cove, a luxury condominium community in Harbor Springs, Michigan.

Timesharing ownership is best described as an alternative method of ownership to fit your vacation schedule and your vacation needs. The primary advantage is that a timeshare owner is required to pay only those expenses attributable to the period purchased.

Timesharing ownership is a means of owning a vacation home part time with only part time expenses. It is a way of being assured of vacation time for a one-time price and never again worrying about

reservations, security deposits and, most importantly, the constantly increasing prices of resort rentals. It is an affordable way to own a permanent vacation in Harbor Springs, one of America's most exclusive resort areas.

Harbor Cove management has followed the progress of timesharing ownership for several years. The success of timesharing ownership at a large number of luxury resorts comparable in quality to Harbor Cove indicates high acceptance of this unique concept and led to the decision to include timesharing in the Harbor Cove programs.

If you would like to ensure tomorrow's vacation at today's price we suggest you read further.
