If a great haircut that fits your personality and lifestyle is important than you'll want to know about Pyrametrics. No two heads are exactly the same so Pyrametric haircuts are never the same.

Here's how we use your head as a guide. Your head is divided into sections which serve as guidelines. Each of these sections is cut to perfectly rest or the one below, at or like taking a brick wall. Section 1 the nape of your neck and up around

your ears form the "flat" area. This is the support system for Section 2, your crown, which is cut to reflect the roundness of its shape. The results are superb.

Your hair will fall naturally, need minimum care. And an added plus; Pyrametric hair looks thicker and fuller. It can be cut long or short can be curly or straight, but it will always be right for you.

We'll show you how to use your head...with Pyrametrics.
