## TIME TO CONVERT TO GAS HEAT!

When you catch sight of that first Autumn leaf slowly spiraling downward, you can be sure that cold weather will be here soon! But if you plan ahead, you won't be caught by Old Man Winter. Almost any home can be converted to gas heat and gas heat is always reliable on cold winter days. It circulates fast so that the whole house is warm in just minutes. So, let it rain, drizzle, snow and sleet—you probably won't even notice, because inside, you'll be enjoying the real comfort of clean, economical gas heat. Convert to gas heat now and outsmart Old Man Winter.

CONSUMERS POWER SUGGESTS YOU SEE YOUR GAS HEATING DEALER TODAY FOR BETTER LIVING TOMORROW!
