This is close to the national trend, Some areas have had bigger increases and some have been a bit lower but the statistics generally were up everywhere.

Hazel Park's sulky meeting was the most successful in the Motor City area. The trotters and pacers attracted record crowds from the opening night to the final program, shattering most Michigan marks.

Wolverine and Northville Downs had big years and the same story is being written at Windsor and Jackson,

One wonders what will hap-pen when the standardbreds open the first winter meeting at Northville Downs on Nov, 24 in the Jackson-at-Northville campaign.

campaign.

The success or failure then will go far in helping Racing Commissioner Leo Shirey make a decision in regard to the future of winter racing in the Detroit area.

JONIMO, INC.

From where we sit, it appears as if it will be a big success. After all the roads aren't any more key in Michigan than in Ordario at that time of the year and most certainly it is a shorter drive to horizontal and western sections than to Windsor.

Those on the east side probably will prefer the trip to Windsor because it is shorter. So, the meeting will give those in the business an excellent chance to determine whether the bettors are from the east side or from the northandwest. Before the end of the year, when the Northville campaign ends, all should have a definite time of what to expect from winter racing.

IT'S A GOOD TRING Jock-land.
