

New from *Joe Frank* of Houston

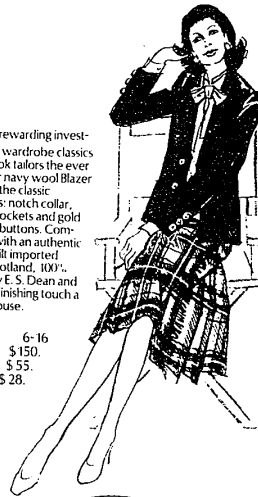

Fashion knits call for a second look, especially when Sonya Rykiel, the classicist, prepares them in a seven-eighths length jacket, the shorter skirt that just covers the knee, and white stockings that point up the soft V-cut of the skirt.

For a rewarding investment in wardrobe classics J.G. Hook tailors the ever popular navy wool Blazer with all the classic features: notch collar, patch pockets and gold anchor buttons. Combine it with an authentic tartan kilt imported from Scotland, 100% wool by E.S. Dean and for the finishing touch a bow blouse.

Sizes: 6-16  
Blazer \$150.  
Kilt \$55.  
Blouse \$28.

out as accents against black. Grey, she said, is all over but browns are nowhere to be found.

"And beige is nothing," she said with disdain. The whole concept of fashion for fall can be summed up as "nothing is more beautiful than an elegant woman."

"Keep in mind that with clothing becoming so expensive, women want to look rich, not silly," she said. Gloves and hats have become an important part of the new refinement, the new "town look."

The big look for evening will be the tuxedo suit, said Hattie. Women will wear it with pants or a skirt, and it will be the important look. A much wider pant returns for fall, looking more elegant for evening than the narrow pant.

Belts remain important to define the waist. Bags are smaller and more structured. Berets and hats with feathers will be worn in town by the woman who wishes to create her own identity.

Metallies in shoes will also be very important. Suede combined with metals in bronzes and greens will point up the season's focal point — the leg.

"Long boots are not a part of the new fashion proportion, they will not be an important fashion accessory," she said. "They will just function for snow. The fashion look for the foot is the choked-up pump with a cone heel."

BRING THIS  
COUPON

For men as well as women...  
The Pyrametric Cut makes thin hair look thicker.

If a great haircut that fits your personality and lifestyle is important then you'll want to know about Pyrametrics. No two heads are exactly the same, so Pyrametric haircuts are never the same. Here's how we use your head as a guide. Your head is divided into sections which serve as guidelines. Each of these sections is cut to perfectly rest on the one below, a lot like building a brick wall. Section 1, the nape of

your neck and up around your ears from the flat area. This is the support system for Section 2, your crown, which is cut to reflect the roundness of its shape. The results are superb. Your hair will fall naturally, need minimum care. And an added plus, Pyrametric hair looks thicker and fuller. It can be cut long or short, can be curly or straight, but it will always be right for you. We'll show you how to use your head... with Pyrametrics.
