

**Our Decorating Style Speaks For Itself . . .  
Commandingly . . . but quietly**

We do not blow our horn as loudly as we should.  
We just go on doing inspired quality work as we  
have for years. You'll eventually find us, so why  
not try us first?

## BE A BETTER COOK!

MAXIM is  
a convec-  
tion oven.  
M A X I M  
has a si-  
lent fan  
that keeps

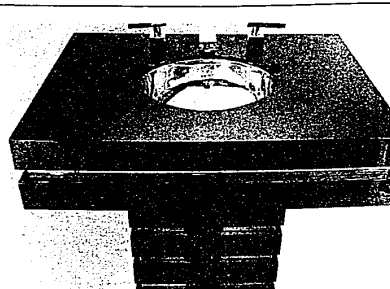

the heat in constant motion, surrounding  
the food, cooking it uniformly from all  
sides, and sealing in the natural juices.  
MAXIM does everything your big oven  
does, only better and faster. It bakes,  
broils, roasts and slow cooks.

## Mirroring moves ahead

Black and mirror Haviland vanity, 24-by-36 inches, makes no secret  
of its sophistication. Like the movie queens of the 30s, it lights up a  
room, even the bathroom. All this glamor and it works just fine for  
washing and brushing teeth for whoever dares to try it. (Staff photo by

## Circa 1910 —

Try curdled milk for cleaning  
your silverware. Let the silver stand  
for several hours in the milk, and  
you will be surprised at the result.

## Update 1979 —

Three methods of paying an archi-  
tect are: 1) the architect receives a per-  
centage of the total cost of the home; 2)  
you and the architect agree on a fixed  
sum; and 3) you agree to pay the archi-  
tect a straight salary and reimburse  
him for his extra expenses.

The wasted space under a stairway  
in a front hall or basement is an ideal  
place for shelves and a desk for an in-  
timate office, or many shelves installed  
and enclosed with a door for entrance  
into an orderly closet.

## The Hot Tub and Spa Experience has hit the Detroit Area.

Hot tubs and spas are no longer just for resorts and  
the wealthy. Designed to hold one to 12 bathers,  
they're for everyone. Hot tubs and spas are  
therapeutic. Hot pulsating water reduces tension,  
improves circulation, soothes muscles and eases  
arthritis pain. Hot tubs and spas are fun. They  
provide a way to spend a quiet evening at home with  
the family or are the center of attraction at a party.  
As the enthusiasm for hot tubs and spas has  
increased, the number of different types of  
tubs and spas on the market has increased.  
Some are better than others. And, as you might  
expect, warranties and guarantees differ,  
prices and quality vary.

Pietila Bros. invite you to come in and see their  
line of hot tubs and spas. You can compare brands,  
complete prices, and get answers to all your  
questions. Bring your list and check out the tubs  
and spas from the inside out.
