The RFM7800 is the microwave oven she's dreamed of. With a touch of the finger she can tell it exactly what to do and it remembers. Naturally, it cooks by time. Or if she'd rather, to the temperature of the MEAL SENSOR® probe. But what's really beautiful about the RFM7800, is its ability to cook to a selected "serve time." All mom has to do is tell it how long to defrost, and cook, and when to have to ready
