

College Eyes Record 4700 Pupils

A record number of 4,700 students awaits the scheduled opening of classes at Schoolcraft College on Thursday, Aug. 29, as the college launches its fifth year of operations.

Registrar Norman E. Dunn said his records point to a 20 per cent increase in fall term enrollment over last year.

Of the approximately 4,700 students already admitted or expected to return to the campus, about 2,800, according to Dunn, will be enrolled in the day program, another 1,500 will be taking classes in the Evening College, and 400 more will be signed up in the college's fast-growing apprenticeship program.

is only one of a number of changes that have taken place at Schoolcraft this year. Fall term students will be paying a higher tuition rate, now set at \$10 a credit hour for resident students and \$18 an hour for non-residents. Actually, the rates went into effect on July 1 and applied to summer term students.

Twenty new full-time instructors have been added to accommodate the increased enrollment, bringing the faculty to 124 members.

One new building will open this fall, another has undergone extensive remodeling since May, and construction has begun on a third.

The new building is the 32-classroom liberal arts building, a 40,000-square-foot structure that also houses a 160-seat theater. The remodelled building—the library—has been given an internal facelift and provides for needed stack space and production of audio-visual materials, along with more reading and study areas.

Just getting underway is the college's 200,000-square-foot education building which is expected to be completed by the spring of 1970.

Although classes won't begin until Thursday, the college year will open officially on Monday when the faculty reports for registration. On Tuesday and Wednesday the college will open for registration for both day and evening programs.

Dunn said registration for day programs starts at 8:30 a.m. for those who have completed advanced registration but who wish to change programs or classes. These students will first report to their advisors to have changes approved. Then the students

will go to the library to complete registration and to pay fees.

Sophomores are scheduled to register on Tuesday afternoon in an alphabetical time sequence. The schedule: 1 to 1:30 p.m., students whose last names start with A through D; 1:30 to 2 p.m., E through H; 2 to 3:30 p.m., I through N; 3:30 through 3 p.m., O through S; and 3 to 3:30 p.m., T through Z.

Freshmen who have not completed registration will report to their advisors to start registration on this schedule: 8:30 to 9 a.m., students whose last names start with A and B; 9 to 9:30 a.m., C through E; 9:30 to 10 a.m., F through H; 10 to 10:30 a.m., I through L; 10:30 to 11 a.m., M and N; 11 to 1:30 p.m., O and P; 1:30 to 2, Q and R; 2 to 2:30 p.m., S and T; and 2:30 to 3 p.m., U through Z.

NEA Reports On Principals

Three out of four elementary school principals in the United States are men.

The estimated 50,000 men and women principals, both teaching and supervising, average 45 hours a week in direct school duties and five hours more in supplementary school-related tasks.

Eighty per cent of the principals have earned a master's or higher degree; 79 per cent are employed as principals for 10 or more months per year; their median annual salary as principals in 1966-67 was \$9,700.

POLITICAL LEADERS — Four women who have risen to unusual heights of respect and influence in public affairs got their heads together at the Republican Wayne 19th District Convention last week. They are (from left), Mrs. Delores Kory, Chairman of the Wayne 19th GOP organization; Senator Mrs. Lorraine Beebe, vice-chairman of the Nixon for President committee of Michigan; Mrs. Mary Dumas, vice-chairman of the total 19th District GOP organization and Mrs. Marion Donaldson, Wayne 19th GOP Secretary and a member of the GOP State Central Committee.

National Affairs Feel Impact Of Distaff Side

Women's influence on the conduct of national affairs goes far beyond the strength of their ballots in the fall elections. It's even more direct than the large campaign contributions possible by the well-publicized fact that women control a major portion of the national wealth.

Some women are so mighty their dispassionate hands are able to make or break a candidate for the highest calling post, that of President of the United States.

For instance, a Redford housewife, Mrs. Delores Kory of 25721 Deborah, could have raised hers and stamped the Republican National Convention in Miami.

She was a member of the Michigan Delegation which was so dramatically considered a pivotal bloc of votes crucial to the nomination strategy of GOP candidates Richard M. Nixon, Nelson Rockefeller and Ronald Reagan.

BACK HOME after the national convention Mrs. Kory immediately began work on a convention responsibility of her own, that of conducting the Republican Wayne 19th District fall convention.

She's chairman of the Wayne portion of the 1968 Congressional District GOP organization. That night she had a minor role. Having gotten the ball rolling, she left the convention progress to others.

Two of the most important of those "others" were women, also.

Both outranked her, in fact, in terms of party organizational stature.

Mrs. Mary Dumas, who opened the convention as temporary chairman, is vice chairman of the total Wayne 19th District organization.

This tiny, lithe Livonian represents 19th District Republican party chairman John Cartwright at such Wayne 19th functions.

The second distaff official that evening was Redfordite Marion Donaldson, in her capacity as convention secretary.

She's also a member of the Republican State Central Committee, where she has an important voice in setting party policy, like that which led to the national convention delegation strategy.

That same evening, a featured guest was State Senator Mrs. Lorraine Beebe, whose 12th District takes in part of Redford in the Wayne 19th Congressional District.

She made the announcement that she had been appointed vice chairman of the Nixon for President Committee of Michigan.

As such, she said, she'll be responsible for mobilizing the women's votes.

Dial direct and let the savings roll in.

If you'd like to save some money, you'll be interested in Direct Distance Dialing. It's a more economical way to call Long Distance because direct dialed calls are all Station-to-Station instead of Person-to-Person.

It's easy, too. Just dial "1", then the Area Code, if it's different from your own, and the number you want. For an idea of how much you can save, here's an example. A 3-minute Person-to-Person call between Detroit and Chicago costs \$1.30 at the day rate. Dial direct and the cost is only 86¢.

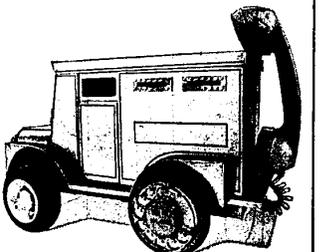

So whenever you're reasonably sure the party you're calling will be there, dial direct and let the savings roll in!

Water Pact Made For Park

The Board of Commissioners of the Huron-Clinton Metropolitan Authority has awarded a contract for nearly \$90,000 for a tap into a Huron Township water main to supply water for a portion of Willow Metropolitan Park under development between New Boston and Flatrock.

The contract was awarded to Alana Construction Co., of Southfield, according to Kenneth L. Hallenbeck, director of HCMA, a regional park agency serving the counties of Livingston, Macomb, Oakland, Washtenaw and Wayne.

Willow Metropolitan Park covers 1,500 acres along the Huron River in western Wayne County and is expected to be open for public use sometime in 1970. Willow Park will become the ninth park in the Huron-Clinton chain of recreation sites covering the five-county area and serving over four million residents.

An anchor is an important piece of equipment. But it will be of no use unless your line is long enough—at least four times the depth of the water.
