THE INSIDE * ANGLE

By LOUISE OKRUTSKY

FIRST THERE was Elvis jewelry, then there was Elvis wine. But when Oakland Community College's Orchard Ridge campus tried to get on the Elvis bandwagon, events didn't quite jell. A few weeks ago, the campus was supposed to be treated to a multi-screen, computerized film spectacular of the best of Elvis. Before you could turn the opening to "Blue Hawaii," the promoter discovered he lost his equipment, computers and all, while changing planes. The delay was enough to cancel Elvis at OCC, for a few months, any way.

MS. THOMAS originally was scheduled to speak only before the Women's Economic Club in Detroit. But when she called a relative in the Farmington area to arrange a visit, a Mt. Carmel Guild member was in the Farmington kitchen enjoying a coffee. "Ask her if she'll speak to us," the Guild member said. (Who says you can't do anything productive on your coffee break?)

System 6 PAINT PROTECTION

The 6-step procedure actually penetrates deep into the pores of the paint, removing dirt and grime, cleaning away the dull film of oxidation. The fresh, clean surface is then burnished to a deep rich lustre glow - brighter than even the original showroom shine. And seals it with a super-hard, crystal clear protective plating that lasts almost indefinitely. System 6 rounds out Tuff-Kote Dinol's car protection capabilities. It's just the kind of product and service you'd expect from the world's largest rustproofers.
