

'Peace' Rose UN's 25th Anniversary Symbol

When the first meeting of 49 delegations of the United Nations took place in San Francisco in 1945, the heads of these 49 delegations received, each in his own apartment, a small vase with a single "Peace" rose accompanied by the following message:

"This is the Peace rose which was christened at the Pacific Rose Society Exhibition in Pasadena on the day Berlin fell. We hope the Peace rose will inspire men's thoughts for everlasting world peace." In June, 1959, the blooms on a plant known only as No. 3-

35-40 proved the great revelation of the season and attracted the most attention among visitors. With brutal suddenness, war broke out on the third of September, 1939, and all communications with Germany ceased. After the invasion of June 1940 the same thing happened with Italy.

Del.: To face life with a smile with "Gloria"; To wish for peace with "Peace"; and as far as ourselves are concerned, to perpetuate a loving memory with "Mme. A. McNeilland".

JUST AS the Peace Rose was presented to the original heads of the 49 delegations of the United Nations, anyone who has a garden, will be asked to plant a Peace Rose in 1970 to celebrate the 25th anniversary of the United Nations.

Just as the first Peace Rose was accompanied by a message of Peace, so will the Peace Rose in 1970. Each Peace Rose will have a special tag with the following message of Peace -- the Prayer of Peace by St. Francis of Assisi:

"LORD, Make men an instrument of your peace. Where there is hatred, let me sow love; Where there is injury, pardon; Where there is doubt, faith; Where there is despair, hope; Where there is darkness, light; and To praise God with 'Gloria'."

Where there is sadness, joy. O, Divine Master, Grant that I may not so much seek to be consoled as to console; To be understood as to understand; To be loved as to love; For it is in giving that we receive; It is in pardoning that we are pardoned; And it is in dying that we are born into eternal life."

JACK MCINTYRE, the man behind the Peace rose project, lives only 50 miles from Ontario. He not only thinks it's fun raising roses -- his rose projects are becoming to be known as Fund Raising Roses. He introduced the Canadian Centennial Rose followed by the Royal Canadian Rose and now, the Peace Rose project.

Thousands of dollars have been raised for charitable purposes so far and, in particular, for Retarded Children, The Heart Fund and the Vanier Institute of the Family.

Proceeds from the Peace Rose project will go to the United Nations Association in Canada, and will be shared with the Canadian UNICEF Committee and the UNESCO GIN Coupon Programme. The funds received by these two organizations will be used overseas in developing countries to provide services to children and educational facilities.

Twenty per cent of the funds will be retained by the United Nations Association and will be used for the promotion of its educational and informational services in Canada.

THE ROTARY CLUB OF Montreal - Lakeshore, Canada, sponsored as one of its Canadian Centennial projects the Rotary International Rose Garden at the site of Expo '67, Montreal, Canada. The Rose Garden still remains as a permanent record of International Goodwill.

The theme rose will be the famous "Peace Rose." At the conclusion of Expo '70 this

Peace Rose Garden will be maintained in perpetuity as a lasting symbol of World Peace. But one single rose garden in Osaka, Japan, worthy as it may be, is not alone sufficient to promote warm thoughts of peace in the minds of people throughout this earth.

THAT IS WHY the Peace Rose Project has had its birth; the plan to use the Peace Rose as an emblem of Peace all over the world; inviting everyone --

schools, churches, business and individuals to plant a Peace Rose Red or just one plant during the year 1970 as a gesture of Peace. While the Peace Rose Project had its beginning in Canada, it is hoped and expected that other countries will follow Canada's example so that the symbolic poppies of Flanders Fields may live again in the form of a "Peace Rose", spreading the gospel of Peace throughout the entire world.

Fold Fitted Sheets In Four Easy Steps

One of the nicest things about sheets with a permanent press finish is that they can be laundered while the bed is being made, then fitted right back on the bed, ready for sleeping comfort -- without ironing if tumbled dry in a dryer.

All of which is an added blessing to housewives who have to cope with limited storage space.

One does, of course, keep extra sheets on hand -- it wouldn't make sense not to. And there are times when sheets must be folded, either for shelf storage or for the return trip home from a self-service laundry.

If the sheets are flat, it's no problem to fold them neatly, but fitted ones can be tricky. Here's an easy method of folding the fitted variety, as suggested by laundry specialists.

1. With the wrong side of the sheet out, place one hand in each of the upper corners and bring hands together. Flip one corner over the other, fitting seam sides to face each other. Bring lengthwise edges parallel. Tuck remaining corners so that seams face.
2. Bring the two pairs of corners together. Turn one pair over the other pair, leaving all four corners nested. With one hand still in nested corners, grasp sheet near center fold with other hand.
3. Place sheet on flat surface and smooth body of sheet.
4. Straighten edges and fold edges in, flattening pocket corner. Fold to desired size to fit linen shelf.

For The Most Wonderful Summer-Time Comfort, The Year Around

NOW—International Electric HOT WATER HEAT WITHOUT PLUMBING

Water and anti-freeze sealed-in permanently-never needs refilling. Installed Permanently for entire homes, apartments, etc.

The Healthiest, The Safest as well as an Economical Way To Heat Your Home or Office

HEALTHIEST—Creating hot water gives you the kind of controlled all-over warmth many doctors advise for their own homes, without the dry heated air that other methods of heating give, and without dust or pet dander stirred around.

SAFEST—Place your Electric heater right over the heater without the slightest danger.

More important, children and pets can't be burned.

ECONOMICAL—You get balanced, steady warmth when water is heated. After thermostat opens all electric elements, circulating hot water continues to circulate heat for considerable warmth.
