## How sick do you have to be before your lealth insurance covers you?

Most health insurance is fine. If you're sick enough Anything bad enough to put you in the hospital qualif for coverage.

But for doctor's visits and regular check-ups,

you're out of luck. Chances are, you have to pay the whole bill

All by yourself.
Right now, Health Alliance Plan is having a special enrollment for people who want individual health care

coverage. Health Alliance Plan is the largest Health Maintenance Organization in Michigan.

A complete health care plan that covers you

in the hospital. And in the doctor's office. For minor illnesses.

For yearly physicals, colds and flu, expensive allergy testing, and emergency room services, you pay only a fraction yourself. And you pay nothing for hospital care. You're covered for less than \$50 a month. If you join HAP as an individual, our health care program only costs \$59.33 per month. And for a family, it's only

\$104.95 per month.

When you enroll during our special enrollment period from now until December 31st, you don't have to fill out a medical questionnaire.

You're covered right away, if you join right away.

If you don't have health insurance, o' if you want to

change from your present individual coverage, you can join HAP and be covered immediately. There's no waiting for benefits.

You're covered at three major hospitals and seven

health centers.

Our association with Henry Ford Hospital, Metropolitan
Hospital, and Metropolitan Hospital West means you'll have comprehensive in-patient care.

comprehensive in-patient care.

Our seven Health Centers are convenient to everyone in the Metropolitan Detroit area from Downriver to West Bloomfield. And you'll have the convenience of having all your family's medical records in one place. And all your descriptions are conferenced.

Vou're covered all the time, instead of some of the time.

Don't settle for health insurance that only helps some

Join Health Alliance Plan and you'll be covered all the time
