### HOW DOES THE MAN WHO DRIVES THE SNOWPLOW DRIVE TO THE SNOWPLOW?

This one drives a Volkswagen Rabbit.

—Because he needs both fuel injection for easy starting in the middle of winter, and front-wheel drive for very good maneuverability in very bad weather. And guess what? With the exception of our own cars, there is only one car in the Rabbit's class that can give you both fuel injection and front-wheel drive: the Rabbit itself.

—So while we would love to tell you what a brilliant choice our snowplow driver made, we can't.

The fact is, he didn't have much choice at all.
