Botsford gets purchase nod

Botsford General Hospital received approval recently from the State Health Director to purchase the intern resident apartment building on hospital property.

The 24-unit building has been rented by the hospital since 1966.

The existing mortgage to be assumed had a balance of \$144,000 last December, with an interest rate of 6 1/2 percent.

Assumable mortgage payments are \$1,385.31 per month. An additional \$1,000 per month will cover taxes and insurance.

A stipulation to approval: Botsford is required to furnish the State with complete details of the cost prior to signing an enforceable contract. If the cost exceeds \$150,000, Botsford may be required to seek another review at the state level.

Remove fat

If a pan from which a roast has been removed has too much grease to make good gravy, dump a tray of ice cubes into the pan. The cubes will pick up all the fat, which will solidify around the cubes. Then they can be lifted out with a spoon, leaving only the meat juices for gravy.

A new way to earn more money for your money.

How to earn bonus interest with a Michigan Money Market Certificate.

You deposit \$10,000 in a 182-day Michigan Money Market Certificate.

Now, no other bank or savings and loan pays more on Michigan Money Market Certificates than the Michigan National Banks. A minimum deposit of \$10,000 is required and the rate at which the certificate is purchased is fixed until maturity.

THIS WEEK'S RATE: Effective June 14 thru June 20, 1979

9.047%
Annual interest rate

9.384%
Effective annual yield

* The effective annual yield is subject to change at renewal and assumes that the interest rate remains unchanged and that both the interest and principal are reinvested.

Federal regulation prohibits the payment of a time deposit prior to maturity unless three months of interest is forfeited and interest on the amount withdrawn is reduced to the passbook rate. New federal regulation also prohibits the compounding of interest on these certificates.

We transfer the monthly interest into a regular passbook savings account.

While the continuous compounding of interest is not allowed on Michigan Money Market Certificates, it is allowed on regular passbook savings. And since the interest you earn on a Michigan Money Market Certificate can be paid monthly, we can automatically deposit the interest you've earned each month into a regular passbook savings account.

3 The result: Bonus interest on your interest.

Your interest continues to earn bonus interest in your regular passbook savings account at the rate of 5.0% annually - continuously compounded to provide an effective annual yield of 5.20%.

Then, when your Michigan Money Market Certificate matures, you can take all of the interest you've earned plus your principal, reinvest in a new certificate at the prevailing rate, and start earning more money for your money all over again.
