I'm Sorry, you'll just have to live with it!

OR

1. There is Nothing Organically Wrong With You
2. There is Nothing Further That Can Be Done
3. Maybe It'll Go Away In Time

Have you ever been told, "You're just getting old" — "It's hereditary" — "It's old age" — "Nothing can be done." — or, "You'll just have to live with it."

Chiropractic treatment has rescued millions of Americans from years of needless suffering. Nine million Americans went to chiropractors last year to find out if chiropractic could help them.

Chiropractic screening tests are simple and painless... and they can quickly indicate if you might have spinal distortions, and thereby be likely to respond to chiropractic care.

Find out whether or not you really do, "Have to live with it." Call today for an appointment. There is no charge for consultation, preliminary screening tests, a report of findings on these tests, and recommendations, if treatment or further examination is indicated. Almost all health insurance policies cover chiropractic care. All fees thoroughly explained prior to any additional service being rendered.
