Improved Roads

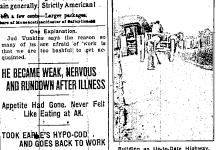

IMMENSE SUM FOR HIGHWAYS

ring Year 1919 Over \$400,000,000 Was Expended for Rural High-ways and Bridges.

ways and Bridges.

During the calendar year 1919, 46 states of the Union expended over \$400,000,000 on their rural roads and bridges, the bursean of public roads of the United States Department of Agriculture recently announced. This total is made up of the actual cash expenditures for such items as labor, materials, supervision and administration, amounting to \$539,53313, and convict labor and statute labor, the value of which, not definitely known, is estimated at about \$152,000,000.

Agrange State of the supervision o

Building an Up-to-Date Highway.

and cities and all items of sinking-fund
payments or the redemption and interest payments on road and bridge
bonds have been excluded.

The road and bridge expenditures
for 1001 show an increase of approximately 33 1-3 per cent over those of
1914. More striking, however, is the
increase in the proportion of the total
fundas supervised by the several state
highway departments. In 1018 the expenditures by or under the supervision
of; the state highway departments amounted to
\$111,285,508, while the
local road founds, over which they exercised no control whatever, amounted to
\$183,512,025. In 1919, however, the
state highway departments supervised
the expenditure of \$200,222,634 as
against the total of \$189,103,237 expanded by the local road and bridge
authorities.

REMOVING SNOW FROM ROADS

f Large Amount of T During Winter,

Snow removal from highways is Snow removal from highways is because of the large amount of travel by motortracks and automobiles. Several states have mide appropriations for removal of snow from the midh highways but in other states there has been no appropriation of tunds for this purpose. Vast quantities of commodities must be hauled over the highways next winter because of the lack-of sufficient railway cars to more them, and state money, rather than local funds ought to be used to keep truck highways open.

IMPROVED ROADS WOULD AID

Many Counties Rich in Agricultural Possibilities Are Burdened With Potr Roads.

With Poor Roads.

Finctuations in market prices may have several explanations. They frequently take place in regions when the local production of the local production of the local production of the local production. There are considered to the local production of the lo

TREES DO NOT INJURE ROADS

Instead of Taking All Out It Would Be Better to Thin Out to 50 or 75 Feet.

Why cut down all trees along the highway being fraded? We recently saw two or three dozen large maples along a road taken out ethirely. It would look much better and be as mable if the row had been, thinned to 50 or even 75 feet. If the road were well made the trees would not injure it at all. Let's have some shade on our new roads.—LeRoy Cady, associate borticulturist, University Farm, St. Paul.

Plant Some Trees.
If you live on the south side of the road, plant some shade trees to shelter the hot traveler. In a few years people will say: "He lives on the farm where those big elms shude the road."

Toat."

Datermine Profits.

Farmers' profits are determined by the difference between production and transportation costs and the selling prices. Production must cease when the transportation costs wipe out the difference.

A New Version.

Seven-year-old Joseph had been going to Smiday school for almost three mipsthe specific plants of the seven several Bible stories. His mother was beauting of his ability to relate them, while his grandfather watted rather impationly. He was ready to start of a trip donwtown and Joseph was going with him.

Then dil jat once Joseph, too, grew impatient, He was in agrandfather's cir and cold not discover the reason for grandfather's lingering. So ough e shouled, "Burry up, grandpa, or we'll he too leve to go. You're as slow' as Moses was when he built the ark."

Like and Unlike.

The death of Anders Zorn, the famonst etcher, brought the talk round to
Whistler, and Pitthoursh poet said:
"Whistler and Watter Sickert were
one pirnting stethings together. Sickett, stumbling, had 'he misfortune to
drojl a copper plate'
"How like you!' said Whistler.

"Some live on hope
folly."

"Haw like your sun waisuer, of the windly was minutes later Whistler, usually the deficest surest of men, tropped a copper pate himself. He saged and picked it up. Then he morrhured the wall was a surface of the wallke met."
