**Announcement**

We have become Edison dealers, and we take a good deal of pride in the fact.

We have been chosen by the business organization, of which Thomas A. Edison is President, to handle the New Edison and Edison RE-CREATIONS in Farmington.

It is going to be our privilege to place before the people of this community Mr. Edison's remarkable musical instrument, the New Edison—"The Phonograph With a Soul," as it has been named by The New York Globe. It is the instrument of Music's RE-CREATION.

We might tell you a lot about this wonderful instrument, but what we could say would read quite like the advertisement of any other sound reproducing instrument; we wouldn't be able to convince you by words alone that the New Edison is really something different.

We want you to hear the New Edison. Pay us a visit at your convenience—the earlier the better—and let us play a few of your favorite selections on this instrument. We promise that it will be only a demonstration; we shall not say a word about buying. You will be our guest—or guests—if you will also bring your family and your friends.

Will you come?

**SCHOOL NOTES.**

(Continued from Page 1)

ester examinations if they had a passing mark in their studies. The contest will continue next semester also.

A very interesting play, "The Beginning of Life" was given at the M. E. church for the High school pupils, and in the evening for parents. This picture was produced by Mr. Stone while working his way through college.

The Senior class are now taking up the study of Law, by Harritt Hamilton. The conference to be held at our High school the 11, 12, and 13th of this month is well under way. But by canvassing the town we have only room for about 30 fellows, and a good share of which is out of town. Surely the people of this town can open up their homes for three days to provide lodging for 1 or 2 boys or more with only three meals. These boys come here for the benefit of our school and town. You do not have to get anything extra for them. The rest of the time will be spent at the school. This being the first time a conference of this kind has been held in Farmington it is a credit to us. Won't you help put this over by giving your name to either Dallas Harger or Clinton Tredway?
