Announcement

We have become Edison dealers, and we take a good deal of pride in the fact.

We have been chosen by the business organization, of which Thomas A. Edison is President, to handle the New Edison and Edison RE-CREATIONS in Farmington.

It is going to be our privilege to place before the people of this community Mr. Edison's remarkable musical instrument, the New Edison—"The Phonograph With a Soul," as it has been named by The New York Globe. It is the instrument of Music's RE-CREATION!

We might tell you a lot about this wonderful instrument, but what we could say would read quite like the advertisement of any other sound reproducing instrument; we wouldn't be able to convince you by words alone that the New Edison is really something different.

We want you to hear the New Edison. Pay us a visit at your convenience—the earlier the better—and let us play a few of your favorite selections on this instrument. We promise that it will be only a demonstration; we shall not say a word about buying. You will be our guest—or guests—if you will also bring your family and your friends.

Will you come?
