## Buyers Guide of Automobiles, Trucks and Tractors

The automobile is as necessary to the commercial welfare of the farmer and business man as is our modern system of banking because without an automobile for transportation purposes the farmer and business man would cut his productivity by one third and some farmers could not carry on their producing without the truck.

as a medium of transportation. Farmington dealers report that business is good and some dealers are having difficulty in filling orders. This community is growing rapidly and the wealth of the land is increasing because of the growth of Detroit. Picture in your mind what the population of Farmington and community will be when Detroit becomes a city of two million five hundred souls. This is the prediction of an eminent Engineer who bases his conclusion on figures compiled by one of the largest utility corporations in America.

The automobile and the motor truck will be the connecting link between Farmington and the commercial center of greater Detroit.

## ESSEX

### It Now Holds This Price Advantage

Essex quality quite naturally creates an expectancy of high price. Compared on every hand to costly cars it would be strange if many did not fall into that error.

Thus actual price comparisons give Essex true value in sharp relief.

How many of the cars in the Essex price range do you ever embrace in the same thought with it in regard to fineness, ability and distinction?

And do the cars that you consider in the Essex quality class invariably cost hundreds of dollars more?

In reaching a standard by which to understand Essex values you must consider such price contrasts, as well as facts bearing on ability and dependance. Such examination will convince you also of the unusual value the Essex represents.

THE UNIVERSAL CAR

### That Mighty Serviceable Truck

HERE is this about the Ford one-ton truck that keeps it growing in popularity, namely, the good reports which the owners of Ford trucks spread abroad among their friends and acquaintances. There is no testimony of merit quite so strong as the testimony of personal experience. It is not long after a Ford one-ton truck is sold in a community until other sales of the same truck follow, because "its works do follow it."

Well, "there is a reason." Yes, there are many reasons. The Ford one-ton truck was built to serve and to satisfy. It carries all the Ford virtues: lightness in weight, simplicity in design, strength in construction, flexibility and durability—besides the lowest first cost and brings the lowest operating expense in the truck market.

It is just as useful; just as necessary on the farm as it is in the city. It is just as necessary to the tradesmen, manufacturers, contractors, commission men and others in the city as it is necessary for such concerns to have a place to do business—in other words, the Ford truck is a general utility, and because of this fact and the further fact of its universal economy it is in a class by itself.

We will be glad to take your order for one or more Ford trucks and will give you fairly prompt delivery. You will likewise have the assurance of that reliable and economical after-service which is such a valuable factor in the service of Ford cars. Price, truck chassis \$515.00, f. o. b. Detroit, including demountable rims and pneumatic tires.

TRADE MARK

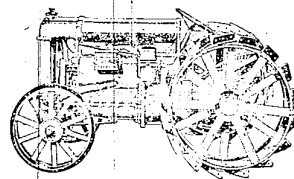

## Farm Tractor

Here's the one Farm Tractor that has real practical service behind it, and a tractor without prompt efficient service cannot deliver its full value to the owner.

The Fordson Tractor will furnish all the power the farmer wants in farming, and also all the power he may want for cutting ensilage and wood, for milking electric lighting, household conveniences, etc. It is the marvel money-maker for the farmer.

Let us tell you about the Fordson tractor and the service we offer with it.

## AUTOMOBILE NEWS

In Tokyo, Japan, there is a registration of 3,212 automobiles.

Importation of automobiles for sale in Italy is entirely forbidden.

Ohio, with a total of 618,000 motor vehicles, has 103 times as many cars as Japan.

For the fiscal year ended July 1, 1929, \$144,494,488.70 was collected as taxes from the sale of motor vehicles by the Internal Revenue Bureau.

Automobile tourists in Italy are not permitted to remain in that country more than six months, and, at the end of the first three, a tax must be paid.

Because the Anti-Horse-Thief association in Missouri now and then catches a horse thief and strings him up, a bill was recently introduced in the state legislature to make the stealing of a motor vehicle a capital offense.
