## THE NEW EDISON-

*The Phonograph With a Soul*

Has Come To Farmington and Vicinity

The New Edison is not a talking machine. It is the only instrument ever invented that RE-CREATES the human voice and the music of human played instruments. By RE-CREATES we mean that there is not a shadow of difference between the renditions of the living artist and the New Edison's RE-CREATION of them. If there is any doubt in your mind on this point, permit us to dispel it by informing you that over fifty Edison artists (great singers and instrumentalists) have submitted the New Edison to the conclusive test of a side by side comparison.

CANNOT BE DISTINGUISHED FROM LIVING VOICES.

These tests have been made before almost four million music lovers and the music critics of several hundred of America's leading newspapers, who were mystified by hearing the New Edison match living voices/instrumental performances so truly that their ears failed to distinguish the living voice or instrument from the New Edison's RE-CREATION of them.

## WAS BUSY MAN IN HOSPITALS

Commander of Wyoming Department Spent Many Months in Kansas and Connecticut Institutions.

Although he was forty-nine years old at the start of the World war, Dr. M. A. Newell of Sheridan, Wyo., commander of the Wyoming department of the American Legion, entered the service and spent many busy months in Kansas and Connecticut hospitals. Dr. Newell was born in Saratoga county, N. Y., and received his early education in the public schools, and in Saratoga academy. He was graduated from the college of physicians and surgeons, medical department, Columbia university, in 1890, when he moved to Wyoming.

Dr. Newell has served on the staffs of a number of governors of his state and was at one time assistant surgeon general of Wyoming. He entered the service in August, 1918, and served at the M. O. T. C. Fort Riley, Kan., and at U. S. General hospital, No. 16, at New Haven, Conn. He was one of the organizers of the Fourth Garriest post of Sheridan and was elected department commander in August, 1919.

## IN DEFENSE OF THE FARMERS

Statement That Agriculturists Turn Backs on ex-Service Men Is Attacked by Writers.

A statement that the farmers of this country gained considerably as a result of the World war and now turn their backs on ex-service men has been challenged by numerous writers. The following is a good statement of the farmers' case, as one correspondent outlines it: "Sixty years of my life had rolled away when this country entered the war. I had four boys and they certainly all wore breeches, but none of them claimed exemption. Three of them enlisted shortly after war was declared. The youngest was a boy of eighteen. Myself, one of the boys, and my sixteen-year-old daughter were left to conduct a farm of more than 240 acres, and we had to work from 16 to 18 hours every day. If we hired any help we had to pay munition plant wages for an eight-hour day, and if we had any surplus cash, we gave it to the Red Cross, Jewish Welfare Board, Salvation Army and other meritorious war agencies also. I know that other farmers in this section are in the same condition. I also know that the states which have paid their ex-soldiers bonuses to date are almost exclusively agricultural."

## WHY SCRUGGS WAS HONORED

Texas ex-Doughboy Is Made State Adjutant Because He Attended Every Legion Convention.

Because Charles W. Scruggs of Dallas, Tex., attended every state and national convention of the American Legion, he was rewarded with the strenuous job of adjutant of the Texas department. Mr. Scruggs enlisted as a private in the Thirtieth division early in the war, and served with that unit in America and France.

He was discharged as a sergeant at Camp Bowie, Tex., March 1, 1919. Mr. Scruggs attended the University of Texas and then taught school two years. At the outbreak of the war he was a reporter on a Texas newspaper.
