In their country as well as in India, the "cane" oil residue from the oil presses, is turned to valuable account as cattle feed. The oil enters into the manufacture of perfumes and drugs, and in Syria it is used in the preparation of a sweetener.

Many so-called great men have fallen a long the way. Look at where some of the European rulers are today. Some aren't.

Right is right, and God loves the truth. Knaves will twist truth to make pitfalls for the unsuspecting.

A woman can make a fool of almost any man, if nature hasn't got the start of her.

Success, as a rule, can be attributed to an intuitive knowledge of human nature.

The man who is the architect of his own character often puts up a job no other man would take off his hands.

Even the engagement ring is the outcome of a trust, and the wedding ring is the natural result of a combination.

It's always difficult to interest a man in the story of your former wealth when you want to borrow money of him.

Most of the things a woman does because she has no reason for doing them turn out better than the things a man does because he has several reasons for doing them.
