# Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrups were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupify the child and give the appearance of relief from pain,

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy ESPECIALLY prepared for Infants and Children and no mother-would think of giving to her baby a remedy that she would use for herself, without consulting a physician.
