

AUTOMOTIVE SECTION

Moon Insignificant in Size.
The distance of the moon as compared with the earth is found by a mechanical journal's correspondent to be little appreciated. The diameter is approximately 2160 miles and on a map of the moon with the disc found to be the size of the state of Alaska, while it would correspond closely to the outline of the earth's shadow at the time of a total eclipse.

Mining Produces Alcohol.
A new source of alcohol, for every purpose, has been found in the mines of the United States in Idaho.

How to Wash White.
A new method of washing white clothes has been discovered by a chemist in the United States. It is a simple process and will save a great deal of trouble and expense.

Cloth Upholstery.
Cloth upholstery may be best cleaned by heating curtains and backs lightly with a steam or carpet heater, after which the accumulated dust is whisked off with a brush. Grease or oil may be removed by an application of kerosene, water and mild soap, applied with a wetted cloth. There are a number of solvent cleaners which will work very well on cloth upholstery, but gasoline and benzine have a tendency to spread instead of to remove dirt.

Crackles Porcelain.
Porcelain cracks because the glaze with which it is coated expands at a different rate from the clay of which it is composed. A manufacturer in Europe is now making a glaze that has the same coefficient of expansion as porcelain.

DORT
Quality Goes Clear Through

**Dort Announces
Big Cut In Prices**

As a matter of fact there are many who openly contend that the beautiful Dort bodies now being shown rival those of costly cars in point of style and craftsmanship.

Come in and let us show you this unique body design mounted upon the Dort chassis that is today regarded as the most practical motor mechanism on the market.

Ford
THE UNIVERSAL CAR

Every Ford Product a Helper

NOWS the time to buy that Ford Car or Ford Truck or Fordson Tractor. Never were higher quality materials woven into these great utilities; never have prices been more reasonable nor that dependable and excellent. After-Service so complete.

Machine work is always more precise than hand work. The special tools and machines in our garage are the same as those being used and recommended because of their precision and time-saving qualities, by the Ford Motor Company. Our modern and up-to-the-minute equipment makes it possible for us to do any work on your car, truck, or Fordson tractor from a minor adjustment to a complete overhaul. The promptness with which we do the work is a by-product of these specially designed machines; and we charge only the reasonable Ford Prices for your work.

If your Ford car isn't running at top-notch efficiency, bring it here to Ford headquarters—that's us. One of our Ford mechanics will adjust or repair it for you with as little delay as possible. Keep your car in good condition. It's the most economical way.

Fordson
TRADE MARK

Farm Tractor

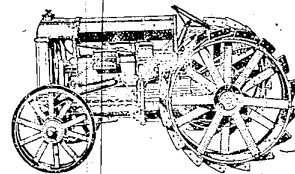

On the farm, just as in the big factories in the city, the machine way of doing things is quicker, easier and better. The Fordson way is the machine way of farming. It will help you to raise more per acre, thus increasing your income. It will help you to do more work in a day. It will lighten your work; and make your work easier for you.

The Fordson doesn't stop with the field work. It is a flexible all around power plant, ready for use during the entire year; and at a remarkably low cost of upkeep. And there's work for the Fordson on every farm every day in the year.

The Fordson is very simple to operate—a school-boy can drive it.

We will be glad to explain it to you, and tell you why it is a profitable investment. Come in and see us.
