## POWER FROM AN AUTOMOBILE

Device Arranged So That Each of Rear Wheels of Car Runs on a Belt Between Pulleys.

The illustration shows a device arranged to secure power from an automobile. Each rear wheel of the automobile runs on a belt between two

Secure Power From Auto.

pulleys and it is kept on the belt by a side roller, which bends against the tire. The car is prevented from moving by straps attached to the rear axle.

**Breakage of Spring Leaves.**  
The commonest cause of breakage of the master leaves of truck springs is lists in the roads. In this way the whole sprung load is thrown on the springs sideways and most of the weight falls on the two down springs.

**Going Chicago One Better.**  
Well-Dressed Girl (on street car)—Why, her and me were the best of friends before him and her met. Of course, this is between you and I.—Boston Transcript.

THE UNIVERSAL CAR

## About Ford Cars - Solid Logic

**T**HE Ford Car has been fundamentally right from the beginning. That fact made it the "The Universal Car." It has always led in lowest first cost and to maintain and operate.

Runabout, Touring Car, Coupe, Sedan, Truck and Fordson Tractor—we have them all and will make reasonably prompt delivery.

Simplicity has ever marked the designing and building of Ford cars, trucks and tractors. Henry Ford and his engineers have always striven for simplicity with strength. The success of the Model "T" Ford car and a great part of the Ford Motor Company's success has come from an early understanding and appreciation of that principle in motor car construction. The fewer the parts in a car, fewer the parts to go wrong. When that simple truth is carried out in producing a car, as it is in Ford cars, trucks and tractors, the result is bound to be a simplicity of design and building that means simplicity, durability and economy of operation.

This simplicity of construction proves itself in the ease with which Ford cars, trucks, and tractors are driven. Four million five hundred Ford cars in daily service proves every claim we make.

More than ever we are sure the Ford car is your necessity—lets have your order today.

## Farm Tractor

The Fordson way of farming is easier, quicker, better. It will help you to do more work per day. It will help the farmer to do all of his work more quickly—not only in the field, but any and all power work on the farm. And because it will do more and better work for you, it is a money-maker.

The Fordson tractor is a product of the mechanical genius of Henry Ford; it is his idea of the universal power plant for all kinds of farms. It is a light tractor; it is easy to handle; and it gives you a steady, reliable power. It endures.

Fordson service—Fordson repair parts and expert repairmen are always handy.

We carry a stock of parts and employ mechanics who understand just how to get the best results from the Fordson.

Let us tell you about the Fordson.
