About Coal

Will the prices go up or down

We don't know, do you? We can't control the price but we can the quality and we are fighting for the best.

Today we have on hand the very best soft coal that ever came down the Grand River pike. Its the four inch lump size of Virginia Splint and is the brightest and cleanest coal you ever saw. Not a bit of slack, dirt or dust. You can pick it right up in your hand. It burns to a complete finish. No clinkers to pave the alley. Come in and see some real coal and lets talk about next winter.

IT'S A WONDERFUL FEELING.

when you can wake up on the morning of wash day and know there's no hard work in store for you. The housewife who owns an Electric Washer rather looks forward to wash day as a pleasure because it does all the real work and does it in half the time.

It doesn't stop with just the washing—it wrings the clothes from tub to tub, rinses and finally blues them by electricity.

All your clothes from the finest, frilliest pieces to the heaviest and thickest, are washed just as carefully and thoroughly as you could do it yourself.
