

## ABOUT COAL!!

Will the prices go up or down

We don't know, do you? We can't control the price but we can the quality and we are fighting for the best.

Today we have on hand the very best soft coal that ever came down the Grand River pike. Its the four inch lump size of Virginia Splint and is the brightest and cleanest coal you ever saw. Not a bit of slack, dirt or dust. You can pick it right up in your hand. It burns to a complete finish. No clinkers to pave the alley. Come in and see some real coal and lets talk about next winter.

but solid arguments in favor of our work in automobile repairing. We are experts, because we have a practical knowledge of every part of the machine and its construction. We are competent engineers and can do quickly and thoroughly what it takes a novice a long time to do indifferently. We give every satisfaction in our labor, materials used, and prices.
