## CAMP BY AUTOMOBILE TO AVOID HOT AND UNCOMFORTABLE HOTEL

Automobile Camping Is Made Possible by the Portable Bed, Table and Grate, Which Can Be Packed on the

To automobile owners who wish to avoid the uncomfortable hotel with its hot, stuffy rooms, the camping outfit illustrated makes its strongest appeal. It requires only a few minutes to set up camp, and the outdoor meal and sleep may be enjoyed even better than in the usual cramped, inconvenient, permanent camp.

**Make Pull-Strap Bed.**  
A full-sized, substantial bed is made by fitting lengths of 1-inch pipe together with side-outlet tees, to form a frame 5 by 8 1/2 feet. The pipe need not be screwed tightly into the tees, and can thus be taken apart easily. The two legs at the outer end are screwed into the tees and into floor flanges, which rest on the floor. The height of the legs depend on the height of the running board, to which the other end of the bed is attached by a bolt, as shown in the detail. The awning support is also in 1-inch pipe, with side-outlet tees at the corners. It is supported by short lengths of pipe, which screw into the pipe caps on the running board of the car, and into tees at the outer edge, or foot, of the bed. Sixteen-ounce canvas is used for the mattress, in which wide hems are sewed with very strong seams. The pipes at the side are slipped into the hems. At the ends the mattress is held by stout cords, laced through eyes in the canvas, so that it can be tightened and loosened as required. The awning is 8 or 10-ounce canvas, made like a tent to fit easily over the pipe frame. The sides should be made to roll up and fasten with straps. If these rolls are too long to carry conveniently the curtains may be cut in two and lapped over when in use.

**Pleasures of Camp Fire.**  
Cooking over camp fire is one of the pleasures of camping, and a good grate will diminish the danger of food

## BLOW-OUT PATCH FOR USE IN EMERGENCIES

Using Temporary Repair Too Long Is Big Mistake.

It Should Be Removed and New Section Built in Time to Enable It to Give Balance of Mileage of Which It Is Capable.

Using a blow-out patch too long is a costly one to motorists. This patch is a car owner's first and best remedy for a blow-out on the road, but it is a temporary and not a permanent repair.

A blow-out patch is only to assist in the roadside emergency. After the emergency is past, it should be removed and a permanent section built in the tire to enable it to give the balance of the mileage of which it is capable.

When the patch is made to answer the purpose of a permanent repair, the warping of the tire led out to contact with the road causes the patch to seriously chafe the inside of the carcass. The result is that where a small and inexpensive repair would have been sufficient if taken in hand at once, an expensive repair is now needed. And often the damage is beyond cure.

The fact that a blow-out patch is not built into the carcass, but is separate from it, increases its tendency to chafe the fabric, creating friction if a permanent repair is too long neglected.

The blow-out caused by a tread cut is usually a clean-cut hole. If it is ragged looking, a severe bruise is probably the cause. If the fabric is badly raveled and torn apart, fabric separation is often the reason.

The motorist who would escape this form of the trouble should avoid running over broken glass; should guard against driving into curbs, along the road, and against rocks, and, above all, should have his tires regularly inspected by a competent tire surgeon.

### YOU AUTO KNOW

The tread of an automobile tire is the same as the standard wagon tread.

The improper adjustment of valves or irregular ignition will cause jerky running of a car.

Front wheels are "under galled," or narrower at the bottom than at the top, to permit easier steering.

To prevent trouble when driving screws into hard wood apply beeswax to the screw, thereby relieving the friction.

Some of the most important parts of a car and the parts most susceptible to wear if not properly watched are the bearings.

### BY THE OFFICE OWL

Even laziness has to find something to occupy it.

Foolishness that is modest is not so foolish after all.

Optimistically loving the masses is done by some men very capably.

Politics is had only because the people don't watch politics carefully.

Debts are so disagreeable to some that they pay them off with haste and fury.

About the time one knows enough to give advice nobody wants to listen to it.

Some prodigious feats are performed by a man sometimes to keep a boy from losing faith in him.

Optimism's greatest victory is the popular belief in the power of money to secure all things desirable.

A middle-aged man will sometimes think if he could find the right kind of hat he would look younger; but he never can find it.

### PHILOSOPHY

"Women may be called the weaker vessel, but we've seen some regular dreadnaughts."

"Many a man when he's courting tells the object of his heart that he is unworthy, and spends the rest of his life proving it."

"Social Butterflies" is distinctly a misnomer. When one thinks of the way women go through clothes, "moths" would be more appropriate.

## Fordson Farm Tractor

More than one-third of the tractors in use in the United States are Fordsons, yet the Fordson has only been on the market two years. Just like the Ford car, the Fordson is an all-year utility. It is a compact tractor; it is easily operated, it has more power per pound of weight than any other tractor manufactured, it is the lowest priced tractor and it is the most economical to operate.

There are more than seven thousand Fordson dealers in the United States. There is one in every community who not only sells Fordsons, but who carries a supply of Fordson parts for repairs and replacements with skilled mechanics to give dependable service, and

to help the farmer get the best out of the Fordson tractor.

The demand for Fordson tractors is greater than the supply. There is only a limited number for each territory. Get your order in now. Orders are filled in the order received.

## In which we double-cross a master mind

TALK ABOUT dime novels.  
THEY SENT Jim down.  
TO TEXAS to investigate.  
SOME OIL wells there.  
WHICH THEY might buy.  
IF JIM said O.K.  
AND HE was to report.  
BY WIRE in secret code.  
NOW—ENTER the villain.  
A SLIPPERY crook.  
GOT WIND of it.  
AND TRAILED Jim down.  
COPIED OFF his code.  
AND BRIED a boob.  
IN THE telegraph branch.  
SO THE crook could get.  
THE EARLIEST word.  
AND CORNER stock.  
AND WORK a hold-up.  
IT LOOKED like easy coin.  
BUT JIM got wise.

AND THREW away his code.  
AND WHEN he sent.  
THE FINAL dop.  
HE FOILED the villain.  
THE MESSAGE just said.  
"CHESTERFIELD."  
AND HIS directors knew.  
THAT ALL was well.  
WITH THOSE oil wells.  
FOR OIL men know.  
THAT "CHESTERFIELD" means.  
"THEY SATISFY."

YOU'LL know you've "struck it rich" when you discover Chesterfields. You'll say "they satisfy." A wonderful blend—the pick of Turkish and Domestic tobaccos—put together in the Chesterfield way—that's why "they satisfy." And the Chesterfield blend can not be copied!

Did you know about the Chesterfield package of 10?
