TEACHING CHILDREN TO
SAVE.

What better incentive can be
given a child to learn the advantages
of thrift than for the father
or mother to start an account for
the youngster in the Postal Savings?
When the deposits to the
child's credit have reached the
sum of \$20, the money can be
made to earn more interest by investing
this amount, with a few
extra nickels added, in one of the
new \$25 Treasury Savings Certificates
bearing the portrait of
Theodore Roosevelt, which will be
issued by the Treasury Department
toward the end of the year.

America will no longer be considered
a Nation of spendthrifts if
parents of to-day use the necessary
precaution to see that their children—
the citizens of tomorrow—are not
allowed to grow wasteful and extravagant. Teach
them the many advantages of
thrift in their young and tender
years. It will grow to be the best
habit they have when life's responsibilities
come.

Thrift will teach them the value
of every penny; the wonderful
growing power of money. It will
teach your child self-reliance and
bring self-respect. If you start
a Postal Savings account to-day or
invest in a \$25 or \$100 Treasury
Savings Certificate, which yield
interest at 4 per cent quarterly, if
held until maturity, you will teach
the child to assume his responsibility
of citizenship by helping
to finance his Government.

That small start may be the first
rung in the ladder of success in
your boy's business life. It will
bring your daughter an understanding
of money values that will
make her an economical house-
wife some day, a blessing and help
to her husband and family.

Reading of Good Books.
A book we may read over and over
until we remember it; and, if we forget
it, may again peruse it at our
pleasure, or at our leisure. So that
good books are a very great mercy
to the world.—Richard Baxter.

handsome does.—Worked—Tales.

Coinage of Trade Dollars.

The total number of trade dollars
colined was 35,965,924. The number re-
deemed under the act of 1887 was 7-
089,036, and from the bullion resulting
from the melting of these dollars there
were coined in subsidiary silver \$2,698-
874.20 and into standard silver dollars
\$5,078,472. Since the expiration of the
period of redemption trade dollars
have been purchased as bullion when
presented at the mints.

Eel Really a Scaly Fish.

Most persons regard eels as the most
slippery residents of the water, but
the investigating scientist says the eel
is covered with a complete set of
scales, quite as nicely arranged as
those on the fish and employed for the
same purpose, but their diminutive
size required a powerful microscope to
study them.

What It Contained.

The highwayman had followed her
from town. He had observed the
purse which she held in her hand. It
was fat, even as a plump chicken. She
was returning from the city, and he
bided his opportunity. It was dusk.
A lonely part of the road was reached.
He sprang forward, snatched the purse
from her hand and disappeared. He
wended his way back to town. Glee-
fully he sought his attic room. "I
shall dine well tonight," he said. "And
he opened the purse and examined it.
It was fat with dress patterns!"

Twin Highwaymen of the Sea.

Ice and fog are known as the "twin
highwaymen of the sea." The United
States government has done much to-
ward the elimination of the danger
from icebergs, but it has not been able
to do much toward the alleviation of
the fog menace. The steamer routes
are regularly patrolled and a constant
watch maintained for icebergs, and
when they are discovered the news is
scattered broadcast by wireless.

Owe Name to Yellow Lichen.

The rocky pass called the Golden
gate to the Yellowstone park owes its
rich color and its name to the yellow
lichen covering its lofty walls; and the
indescribable hues of the great hot-
spring terraces arise mainly from the
presence of minute plants flourishing
in the water that overflows them.

Alaric's Pilgrimage of Rome.

On August 24, 410, Alaric, at the
head of the Goths, entered Rome at
midnight, allowing pillaging for six
days, but giving orders to his soldiers
to be sparing of bloodshed, respect the
honors of women and not to burn the
buildings dedicated to religion. A part
of the city was destroyed with many
ancient works of art.

Finest of All Epitaphs.

When I lie down for the last time,
with my face up toward the stars, I
want no finer monument above me than
a simple slab with this line on it: "He
lived the white life."—Ezra.

EDISON RE-CREATIONS

of the latest dance hits are
made by Broadway's most
popular orchestras. Some of
those which make recordings
are:
Club de Vingt Orchestra
Max Fells' Delta Robbia Orchestra
Harry Rademacher's Jazz Orchestra
Ray Miller and His Black and White
Melody Boys
Lamby's Orchestra
Earl Fuller's Broadway Dance
Orchestra
Conrad's Orchestra, Newport Casino.
Orlando's Orchestra
Vaudeville's headliners
make Edison RE-CREATIONS
of vocal hits.

EDISON with Broadway HITS

THE tables have been turned. Now
it's Edison,—who gets here first
with Broadway's newest song and
dance hits.

Edison scouts constantly cover every
Broadway show, restaurant and ex-
clusive club. They get the new hits
the moment they break.

Mr. Edison has installed a special de-
partment of manufacturing, with special
equipment, which speeds these hits

through in record-breaking time. In
some cases, the Edison RE-CREATIONS
of a new number beat the sheet music
out.

"Flashes from Broadway" are sent
up, by fast express, as quickly as they
are issued.

So, if you want to keep up with
Broadway, watch our windows for
"Flashes from Broadway" and visit our
RE-CREATION department.

EDISON RE-CREATIONS

Remember, too, that on the 20th of
each month, Edison issues a fine sup-
plement of classical and popular music,
rendered by world-famous artists.

To hear any of these RE-CREATIONS
on the New Edison is to hear the finest
music which modern homes are able
to command. For, the Edison RE-

CREATION of an artist's performance
can not be told from the artist's origi-
nal performance. This has been proved
by thousands of tests of direct com-
parison.

Before you buy your Christmas pho-
nograph, be sure you hear the wonder-
ful New Edison.

Friday Evening AMY ELLERMAN and VERA BARSTOW

Amy Ellerman, contralto, and
Vera Barstow, violinist, famous for
their art the country over, will ap-
pear in a specially selected program.

This appearance of these famous
artists constitute the musical event
of the season. The assisting artist
is Calvin Cox, tenor.

What makes this concert of more
than usual importance, are several
numbers in which the artists will
compare their art with its RE-
CREATION by Mr. Edison's new
phonograph.
