NEW BONUS PLAN IS PROPOSED

\$4,000,000,000 of Britain Bonds Would Provide for Veterans.

Washington—Four billion dollars worth of British government bonds, underwritten by the United States, will provide for the soldiers' bonus, if the present plan of administration leaders is carried out.

Administration leaders are understood to be prepared to go before the country with such a plan, intended at once to take care of adjusted compensation for American ex-service men and the British indebtedness to the United States.

It is proposed that \$4,000,000,000 worth of British government securities, guaranteed by the United States government, will find a ready market in this country if offered for general sale, and will lead to an early and speedy solution of the difficulties confronting the administration relative to the soldiers' bonus and the foreign debt.

1921 FARM INCOMES \$18,153,000

State Farmers' Receipts Drop 64 Per Cent Since 1919.

Lansing—A decline of approximately \$116,000,000 in the gross income of crops to the farmers of the state in 1921, as compared with 1920, is shown in a report by Verne H. Church of the federal state bureau of farm crop estimates, and Herman S. Eshelby of the state agricultural department.

The peak value of crop production was reached in 1919, the report declares, with a gross of \$106,107,000. In 1920 it dropped to \$93,410,000 and in 1921 still further declined to \$187,153,000.

These figures represent the income, exclusive of live stock and live stock products, from an investment representing 192,447 acres of total value of about \$1,500,000,000. The decline in income from 1919, when the peak was reached, to the end of 1921 was 64 per cent.

Last Saturday afternoon, Jean Clark entertained 14 little girls in honor of her 8th birthday anniversary. The house was decorated with yellow and white, the favors being yellow baskets filled with candy and the birthday cake with eight candles. The afternoon was a happy occasion for the little friends. Miss Jean was the recipient of many pretty gifts.

Embarrassing Query.

A person had his cage near the door containing the drawing room and the dining room. One evening as the men of the party were filling into the dining room, the parrot eyed each entrant as if trying to recognize them. As the most diminutive of the gentlemen passed by, the parrot, evidently puzzled, said distinctly, "And who the deuce are you?"

Lines to be Remembered.

Education is a better safeguard of liberty than a standing army. If we retrench the wages of the schoolmaster, we must raise those of the drill sergeant.—Edward Everett.

Transporting Power of Water.

The transporting power of flowing water varies as the sixth power of the velocity. Thus if the velocity of the water is doubled, its transporting power is increased 64 fold. This explains the effect of a river in flood in carrying all things before it.

Valuable Food Grows Wild.

"Florida arrowroot" is made from species of Zamiis, or "cocoate," growing wild in southern Florida. This plant supplied the Sanguiole Indians with food during their long wars with the United States.

OLD COLONY HOMES SUBDIVISION SOLD

John R. Uhlig, manager of the Old Colony Homes subdivision, Hemlock St. D. U. R., states that his company has liquidated all indebtedness on its property. The sales contract has been taken over from John P. Hehl by the Houseman-Spitzley Corporation, one of the most substantial organizations in the city. Contracts on this property will be restricted to a better class of homes, professional garages being discontinued except on the rear of lots. The underwriting of Lexington avenue has just been completed. There are now twenty-two families in the settlement and the class of inquiries that are coming in now indicates a brilliant future.

CLARENCEVILLE SCHOOL

Ira Brooks and Vincent G. Gay have left school.

The boys are planning a program later.

The boys had their first base ball workout this week. Of course it may snow again. But the following pupils have been neither absent nor tardy this year: Gladys Baker, Clayton Gaylord, Ralph Waack and Louis Monroe.

The Parent-Teachers' Association will hold their monthly meeting in the school house Friday afternoon, February 10th. All parents are urged and invited to attend. A program has been arranged.

We are making a graph of our absent and tardy marks, the grade having the highest percentage in attendance and least tardy mark will be given a half-holiday at the end of each month. We hope in this way to raise our average.

There will be a community "Get-Together" and dance at the school house this Friday evening, Feb. 3rd. No admission will be charged. Refreshments will be served—the proceeds to the Athletic fund.

The following promotions were made this semester: Raymond Hallman and Madrice Wilcox from the Seventh to Eighth grade; Earl Wilkerson from Sixth to Seventh; Agnes Moss, Edward Lowney, Jack Stewart, Ethel Malkan, Wm. Zwalen from Fifth to Sixth grade; Jack Wilson, Shirley Zwalen, Sinclair Gould, Helen Rastner, Lillian Wilkerson, Elinor White, Frank Emerick from Fourth to Fifth grade; and Bruce Williamson and Elmer Kelley from Third to Fourth grade.

John Club banquet tickets can be secured from Mr. James L. Hogle.
