

## LINCOLN'S CHALLENGE

*The hired labor of 'yesterday', labors on his own account today, and will hire others to labor for him 'tomorrow'.*

There is a challenge to YOU in that significant statement of Lincoln's and just encouragement in the fact that most of today's successful bankers, manufacturers, and farmers were "yesterday's" clerks, machinists, and farm hands.

The men who bought the least "yesterday" may buy the most to-day. The men who live on less than they earn to-day, and bank the difference are fitting themselves to fulfill Lincoln's prophesy for tomorrow.

*If you'll put forth that kind of effort, this bank will help YOU become a leader "tomorrow"*

### Peculiar Chinese Rice.

Ang-khak, or red rice, used in China for coloring food products, owes its color to a species of mold which is cultivated with the rice by special treatment. The red rice is reduced to a fine, soft, red powder before used.

### Proud Professors.

In ancient days professors were "too proud" to take wages, and depended on gifts from their pupils for their existence. The Emperor, Yessan, was the first to establish state-paid education during his reign, about A. D. 60.

### Costs Money to Keep Mines Dry.

One of the big expenses of a coal mine is the continual pumping of water to keep it dry. In the average anthracite mine, 15 tons of water are hoisted from the mine for every ton of coal mined, and in some mines it runs up to 27 tons.

### Worthy Ideal.

When I die call me "a good sport." A sport in all that it implies; cheerful, willing, ready to serve; anxious to do right; level content when the day is done—impatient for the new chance on the morrow.—Selected.
