

## The hold-up game

You have no chance to win when you meet the hold-up man. If you stick up your hands as directed, your cash goes right then. If you resist, you may be injured, possibly killed, and your money goes just the same.

Hold-ups are of common occurrence. If you carry your money around on your person you are taking big chances. There is one way to beat the hold-up man. Deposit your money in a good bank like ours and pay your bills by check. It is the safe, convenient, modern way and leaves nothing for the highwayman to gobble up.
