

A Standard of Living

As the old fellow said when first saw a giraffe: "There ain't no such animal." There is no real standard of American living.

Most of us live right up to the limit of our incomes. Some go even beyond and land in debt—sometimes in jail. Those who earn much, spend it and those who earn little, spend what they have. High prices intoxicated most folks and they started right out to paint the town a ruby red and show 'em all how real guys could separate themselves from their coin. Now it is over, and the remedy is—SAVE. Use our bank. We will be glad to help.

Abundant vitamin, now contained in small yeast tablet

Yeast Foam Tablets are from 4 to 5 times as concentrated as the ordinary baking yeast. The necessary vitamin potency, therefore, is contained in a much smaller dose.

"CONGRATULATE YOU," writes a well-known physician, "on your new therapeutic yeast. I am sure it will be welcomed by the medical profession and by thousands of people who dislike eating such large quantities of fermentative baking yeast—as well as by countless others who sought in vain for any appreciable tonic benefits in many drug-laden and untested 'vitamin' preparations."

This yeast supplies what modern foods lack

Yeast Foam Tablets correct a serious deficiency in present day diet by supplying the essential vitamin which is found in many raw foods but which is completely eliminated, in many cases, by the time these same foods reach our table.

This vitamin is necessary to digestion and the conversion of foods into healthy tissue and bodily vigor.

Without sufficient quantity of vitamin your body goes sick and you are only too aware of it in such signs as loss of appetite, failing strength and endurance, nervousness, sallow skin and other definite signs of vitamin starvation.

Yeast—richest source of vitamin

In the yeast plant is an abundant store of this indispensable vitamin and in Yeast

Foam Tablets there is nothing but pure, whole yeast—millions of these tiny plants being concentrated in each tablet.

The vitamin potency of this new yeast is therefore high and, consequently, its tonic and reconstructive properties are most unusual.

Yeast Foam Tablets are made by the world's largest manufacturers of dry yeast, the makers for 45 years of the famous baking yeasts, Yeast Foam and Magic Yeast.

They are the result of two years of experiment conducted under the guidance of some of the country's leading medical scientists. Recommended by physicians and sold by druggists everywhere.

Extraordinary advantages of Yeast Foam Tablets

The only pure, whole yeast in easy-to-take tablet form.

They contain no drugs or other ingredients.

They do not form gas nor cause belching.

They are the only pure, whole yeast suitable for children; they do not cause fermentation.

Each lot is tested to insure high and uniform vitamin potency.
