Keep Your Blood at Its Best—It Means Vigorous Health and a Cheerful Mind

It is often said "you cannot buy good health" but we can do a lot toward keeping our good health and avoiding sickness by keeping our system in first-class condition. Since most of the diseases are traced to the blood, what is more important than keeping our blood in good condition. Influenza and winter colds have weakened the blood, it has exhausted its strength and is in no condition to fight off other disease germs that we are exposed to. The sensible thing to do is to keep the blood full of red corpuscles. To do this and until nature takes hold you can help a lot by taking a good, refreshing tonic like "Herb-Tone" a preparation that has proven to be a good blood and skin purifier. If you are not strong enough and healthy as you used to be it is important that you help nature. Do not allow yourself to be run down in health and subject to headache, indigestion and nervousness. Start to take "Herb-Tone" three times a day. It contains such ingredients that gets into the blood and gives strength and greater vitality and a good color and you will sleep well, because your nerves won't bother you. "Herb-Tone" is recommended and sold by

PUT CAR THEFTS AT \$100,000,000

Interstate Commission Works Out Clearance Test to Cut Down Losses of Autos.

OWNERS ARE ASKED TO HELP

Organization Conducts an Active Campaign Throughout the Country With Headquarters Located in the City of Chicago.

Coincident with the announcement that the Interstate Motor Theft commission would be constituted as a permanent organization with headquarters in Chicago, it was said that reports of thefts of automobiles throughout the country indicated that cars valued at \$100,000,000, were stolen every year. It also was asserted that these automobile thefts showed a loss of \$300,000 for every twenty-four hours.

The Interstate Motor Theft commission was formed in 1921 for a nationwide inquiry into automobile frauds and thefts and for the destruction of the market for stolen cars. The commission is composed of about 100 persons in different parts of the country, including Deputy Police Comptroller Joseph A. Faurel, E. M. Allen, member of the Insurance Committee of the United States Chamber of Commerce; J. A. Hall, educational director of the Associated Advertising Clubs of the World; Gustav Bergman, the sculptor and president of the International Sporting club, and Dan Beard, National Boy Scout commissioner.

National Clearance Test. "A national clearance test to be applied to all cars registered in the United States has been carefully worked out that not only will result in the detection and recovery of a great number of the unrecouped cars stolen in the past, and that are still in operation, but will prevent to a very large degree, the future sale, use, or registration of stolen cars in any state, regardless of character, number and appearance," says a statement of the commission.

"The plans of the commission are considered the most constructive and business like that have been advanced since the advent of the automobile itself to adequately protect America's \$5,000,000,000 of motor car wealth against commercialized theft and fraud. Since its inception this body has enjoyed almost unqualified moral support and co-operation from many sources, among them police, detective, state, insurance and business associations, civic organizations, motor car associations, clubs, manufacturers, distributors, dealers and owners."

Owners' Aid is Asked. The statement added that owners of cars were especially being urged to aid the commission in eliminating automobile thefts throughout the country. It declared that automobile theft "is today one of the most profitable forms of lawlessness." "Automobile thefts retard the advance of every branch of the motor car industry," the statement continued. "Imposition of burdensome liability upon owners, and police and state departments. "Many laws to check the motor car theft and fraud evil have been enacted. The majority of them carry heavy penalties, and although many arrests are made throughout the country convictions seem difficult to secure; in any event fewer than should be accomplished, and no perceptible checking of this lawlessness is generally apparent."

Walled Lake News. The hotel will soon open up for the season. They are putting new sleeping porches on the old stone schoolhouse.
