TALE OF HEROISM AND NEGLECT TOLD

TOWNSEND VIGOROUSLY PRESSES BILL FOR RELIEF OF ONE OF MICHIGAN'S GREATEST HEROES.

"BRAVEST MAN IN THE WAR"

Washington—Through a bill recently introduced by Senator Townsend of Michigan, one of the most heroic exploits of the World War—and likewise one of the most tragic examples of governmental red tape toward one of its heroes—has come to light.

It deals with Robert Guy Robinson, of Ypsilanti, one of the two Michigan men to be awarded the Congressional Medal of Honor—the nation's highest tribute to valor in action. Robinson's military record relates that Robinson as a marine aviator took part in an aerial raid over the German lines, and that as a result of his squadron breaking up, he was obliged either to surrender or to fight his way back to the American lines through a German "dread" of nine Fokkers.

Determined to Fight. He and his pilot determined to fight. At the first burst of German machine gun bullets, the goggles were shot from the pilot's eyes. Robinson received one bullet in the back and another in the elbow.

But flying fast toward a German salient, the American plane found its way through the enemy flyers shooting down two of them. Robinson then hit upon the most daring maneuver of all. He directed his plane directly over the area of the salient where the anti-aircraft guns were located.

Their aerial barrage was a trifle late to catch his plane, but it so endangered and delayed the enemy flyers that the Americans gained their vantage, and succeeded to earth within the allied lines. But by this time, the pilot had received wounds from which he died, and Robinson had been struck by four more bullets.

The report of the commander of the Belgian hospital to which he was assigned is that Robinson was the bravest man whom he encountered during the war.

Honors—Then Neglect. Citations, honors and medals followed. And then came the governmental neglect of one of its heroes returned to civil life.

Under the law, Robinson was entitled to be retired as a lieutenant of marines, with pay. Inasmuch as he is still disabled, and his parents die while he was in service, he needed that money.

But no notification ever was given him, and the first he ever heard of it was through the American Legion on the day of the burial of the Unknown Soldier.

And—under the law—that was 21 days too late to file his claim! The Legion took the matter up with Secretary Denby, but the latter was unable to unravel the red tape. However, he is cooperating with Senator Townsend to the fullest degree in having adopted a special act of Congress for Robinson's relief.

LEGION TO BUILD ORPHANS' HOME

WAR MEMORIAL EVERLASTING IS PLAN OF STATE VETERANS ORGANIZATION—TOWN.

SEND IS FOR IT.

NOW LOOKING FOR RIGHT SITE

A "War Memorial Everlasting," in the form of a school and home for the orphans of veterans of the World War has been outlined by the state executive committee of the American Legion.

The committee decided that instead of a monument or other ornamental structure it would establish in Michigan an institution of practical aid to the fatherless children of the war.

Townsend Approves Plan. As the plan was proposed, the Legion itself would carry on the work without seeking the aid of any public funds.

Senator Townsend of Michigan has written from Washington his hearty approval of the plan, and will cooperate with the Legion in carrying it through.

"Our idea," said Paul A. Martin, State Commander, in presenting the plan, "is that the highest type of war memorial must combine the elements of useful help, permanency, and a just appreciation of the sacrifices of the dead."

"When the American Legion of Michigan undertakes this great work, it will have assumed national leadership in a movement which cannot fail to catch the spirit of patriotic imagination and support everywhere."

"My idea is that the home should be located in the country, where the best combination of beautiful surroundings can be found."

"There is no need for us to decide just where, for there will be much competition among various communities to obtain this unique war memorial."

CAN YOU QUALIFY?

What is the first order of cylinders? Number of points of lubrication on your car? Give three reasons for overheating the engine? What is the purpose of the various speeds of a transmission? Gasoline and oil consumption per mile? Road speed in miles per hour at which engine will perform most efficiently on a road? On average road, driving at a speed of 25 miles per hour, what distance is required to bring your car to a dead-stop?
