

When Prices Fall

It is easy to do business on a rising market. Then everything is lovely. But when prices start to fall, there is a different story.

Then the dollar becomes hard to obtain and its purchasing power correspondingly increases. All are willing to see prices come down, but all want to see the reduction made on what the other fellow has for sale, first. As the dollar increases in value it is more and more worth saving. We invite you to open an account at our bank, where your valuable dollars will be safe.

YOU CAN BE HEALED!
Only a few years since the phonograph, wireless telegraphy, and the flying machine was considered impossible or of no practical use. Why was this so? Simply because they were a step in advance of what was recognized as practical and conservative.

Today, everyone knows their merits and wonder why they were not discovered long ago.

MAGNETIC HEALING
stands the same today, just one scientific step in advance of the old schools for the eradication of all forms of disease, without the use of medicine and surgery. If you are afflicted, and have failed to find a cure, call and let me show you testimonials of some of my patients who have been healed by laying on of hands. Nervous and chronic diseases of all kinds
