When you know that
the labor cost of painting
amounts to at least three-quarters
the total cost, it is easy to see that
extra wear is worth much more to you
than the small difference between the cost of
good and poor paint.

What you want is paint that will insure a weather-
proof film over your buildings—and that will postpone as
long as possible the cost of repainting.

Patton's Sun-Proof Paint

is made by exact scientific formulae and absolute uniformity is
maintained by the chemical analysis of raw material.

You are on the safe side when you specify Patton's Sun-
Proof Paint. You can depend upon it—absolutely.
