Get a Paint that Gives You Real Weather Protection

When you know that the labor cost of painting amounts to at least three-quarters the total cost, it is easy to see that extra wear is worth much more to you than the small difference between the cost of good and poor paint.

What you want is paint that will insure a weather-proof film over your buildings—and that will postpone as long as possible the cost of repainting.

Patton's Sun-Proof Paint

is made by exact scientific formulae and absolute uniformity is maintained by the chemical analysis of raw material.

You are on the safe side when you specify Patton's Sun-Proof Paint. You can depend upon it—absolutely.

Color schemes and suggestions furnished free by
