AUTOISTS BLIND TO ALL DANGERS

Eight Out of Ten Drivers Will Completely Ignore Perils at Railway Crossings.

AUTOMOBILES RUN INTO TRAIN

Chicago Safety Council is Striving to See to It That Accidents Are Not More Frequent Than in Other Sections.

"Eight out of ten motorists drivers enter railroad crossings without looking either way for the approach of a train, and one out of five railroad crossing accidents is the result of the automobile running into the side of the train."

The foregoing is the statement contained in a pamphlet, distributed to all school children by the steam transportation committee of the Chicago Safety Council, which is functioning the careful crossing campaign for the American Railway Association, says the Chicago Daily News. Large colored posters, showing an automobile colliding with a railroad train and an automobile, are also being placed in the schools upon instruction of Superintendent Victor A. Mortenson.

Hope All Will Heed.

"It is hoped," concludes the pamphlet, "that all children who have seen this message will carry it home to their parents and do everything possible to prevent railway crossing accidents this summer. At the same time the railroad employees will themselves take every possible action to minimize casualties from this cause."

The campaign of the railroads extending all over the United States and Canada continues to September 30. It is exciting annual interest on the part of motorists and the Safety Council is striving to see to it that Chicago's record as to railway crossing accidents during this period is at least as favorable as that of other sections of the country.

"If all motorists will cooperate in our efforts," said President William Otter of the Safety Council in discussing the situation, "we will substantially avoid such accidents during the summer months and thus save many people from death or serious injury."

Public Interest Lax.

"It is obvious that up to this time the general public is not paying deserved attention to the careful crossing campaign. For our reports show that a total amount of such accidents occurred over the weekend in Chicago and the surrounding territory. It is difficult to believe that in the face of this campaign motorists persist in taking chances at railway crossings. It isn't enough for the man driving the machine to fail to appreciate the danger to himself involved in crossing railway tracks, but surely he must place great value upon the lives of the people who ride with him. One is almost forced to think that sometimes he does not. The time has arrived when we must all become aroused to this situation and do our share in improving it."

REPAIR GASOLINE FEED LINE

Temporary Job is Readily Done by Wrapping Tape Around Break and Cover With Wire.

A temporary repair of the gasoline feed line can be readily made. After shutting off the gasoline at the tank, tape is wrapped around the break and the broken ends are covered with a layer of the heavier or other wire is then wound over the tape, making sure that the wrapping is tight, close and even. Another layer or two of tape is applied over the wire and the wire ends are secured with a few turns of wire are wound over the tape to protect it from unraveling.

Clean the Screen.

When in process of the screening is used in the high-pressure systems to separate foreign material from the oil, these screens should be frequently inspected. Deposits of metal or other foreign matter collected on the screen may not be cleaned at frequent intervals, this foreign matter may seriously impede the flow of lubricant, with stopped bearings or a flooded crankcase as the direct result.

Water Leaking Into Cylinders.

Cooling water leaking into the cylinders of an engine may be the result of a crack in the cylinder wall or a poorly fitting plug between cylinder head and water jacket which some engine possess.

Stringing Cotter Pins.

Cotter pins of assorted sizes can be conveniently kept by stringing them through the eyes onto a little string reel. In this way, when the job of stringing them is done, it is easy to select the size needed.

White Flowers and Moths.

The reason why certain pale flowers smell sweetly when dusk falls is because they are pollinated by moths which are attracted by their scent. The scent is a guide to the winged visitors and the pale color also helps. Notice honeysuckle, night-scented stock, and the tobacco plant.

RAILROADS HELD FOR BETTER FAIR

WILL CARRY EXHIBITS TO STATE EXPOSITION IN DETROIT FOR ONE-HALF RATE.

PASSENGERS OFFERED EXCURSION PRIVILEGES

Co-operation of the railroads throughout Michigan with the fair administration to make the Seventy-third annual Michigan State Fair at Detroit, September 1-10, greater than ever before has been promised, according to George W. Dickinson, secretary and manager.

Mr. Dickinson has arranged for special privileges for exhibitors. The railroads will carry exhibits here on a half-rate and ship them return free of charge so that the concession amounts to be explained. Arrangements also have been made whereby an exhibitor desiring to ship to a circuit of fairs in the state may secure a half-rate. These concessions, of course, are an exception to this rule. Four big trucks run into the fair grounds, and, adequate, docks have been constructed there to handle exhibits rapidly.

Concessions have also been made by the roads on passenger rates. Anyone in Michigan may secure an excursion rate to and from the fair at a reduction of one-fourth of the total charge. These rates will exist from the day before the fair until the day after.

With the cooperation of the railroads, Mr. Dickinson announces an advance sale of admission tickets to the fair throughout Michigan at 10 cents each or three for \$1. Anyone who does not take advantage of the advance ticket sale, which will continue until the day before the fair, may secure admission tickets at the ground at the rate each, a reduction of one-third from last year's price.

Tourists from any part of Michigan will be allowed to bring their automobiles into the fair grounds after five o'clock in the afternoon, free of charge. The City of Detroit, which now controls the street railway system, has agreed to carry passengers from the center of the city to the grounds for a single fare. Heretofore, a double fare has been charged.

The fair manager believes these concessions in admissions and the cooperation of the railroads and street railways mean the attendance at this year's exposition will exceed 1921 by at least one-third.

APIARY EXHIBITION TO BE ONE OF BEST

One department which George W. Dickinson, secretary and manager, believes will bring many visitors to the Michigan State Fair, Detroit, September 1-10, this year, is the Apiculture.

The policy of purchasing honey from farmers, putting it in uniform containers and displaying it in the Apiculture department of the fair which has prevailed in previous years will be followed at the approaching exhibition. Collection of honor, straining and every preparation for sale will be shown in the apiculture exhibition.

Several swarms of bees which have been multiplied from two original swarms on the fair grounds early in the year will be on exhibition. At the close of the fair, the bees will be turned over to the Michigan State Fair, Mr. Dickinson announced.

CAUTIONS TO MOTORIST

Always remember you are an autoist, fully responsible.

Report your brakes at least once a month.

Never pass a street car when it is stopping for passengers.

Always signal with hand when slowing down, turning or stopping.

Sound horn three times when backing.

Observe the traffic rules carefully; they are made for your safety.

Disengaged Clutch.

The clutch is disengaged before each shifting of transmission gears to allow the movement of the shafts and shifting lever and prevent grating and possible breaking of gear teeth while the shift is attempted. It is possible to change gears without first disengaging the clutch, but considerable practice and familiarity with them is necessary, and danger of stripping the teeth and strain on the entire driving system is greatly increased.

True Fortitude.

True fortitude I take to be the quiet possession of a man's self, and an undisturbed doing of his duty, whatever evil befalls or danger lies in the way.

Locked.

All on the Same Principle.

Every form of lamp for use in mines is based on the design of Sir Humphry Davy, whose principle was that flames will not pass wire gauze.

Fish Weatherwise.

It is said that most fish, but trout in particular, know what the weather is going to be for about 24 hours in advance.

Direct State Fair Entertainment

Michigan State Fair Entertainment Committee—left to right, Arthur Peterson, Escanaba; John Endicott, Detroit, chairman, and John A. Miller, Swartz Creek.

John Endicott, business man and farmer, is chairman of the 1922 entertainment committee of the Michigan State Fair. G. W. Dickinson, secretary-manager, announces in the premium catalogue for this year's exposition.

Arthur Peterson, of Escanaba, and John A. Miller, of Swartz Creek, are assisting Mr. Endicott on this committee.

During the past decade, Mr. Endicott has occupied a unique position in Michigan farming circles. His beautiful farm near Detroit has been the subject of considerable favorable comment throughout the state.

Of late, Mr. Endicott has taken keen interest in raising Guernsey cattle. His exhibition was one of the finest at the last National Dairy Show. He has been attached in an official capacity to the State Fair for a number of years, and this year will be in charge of the grandstand, one of the most important duties of the fair. Besides being a member of the entertainment committee, Mr. Peterson, an Escanaba florist of enviable reputation in the upper peninsula, is head of the floral department at the Michigan State Fair. He was named by the governor to the fair board in 1921 for one year and reappointed this year.

Van Browne Trio Here on Last Night of Chautauqua

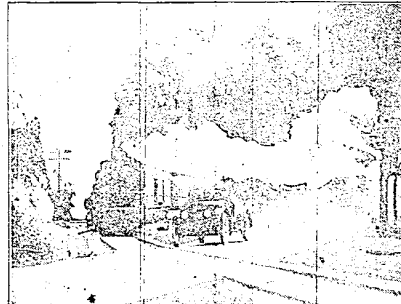

Van O. Browne, singer, pianist, pianist and violinist, head of the Van Browne Trio, notable entertainment company, which will appear here on the last night of the annual Chautauqua.

Cells, violin and piano trios are among the splendid features of a feast of music, both classical and popular in character, offered by this company. Vocal numbers, piano-accompanied selections and the master character impersonations of Van O. Browne, all have a prominent place on the Trio's exceptional program.

Mr. Browne's impetuous stage from a debauched man-about-town to a London prince. Every character is presented in costume with elaborate stage settings and splendid lighting effects.

STATES HELPING TO ELIMINATE MENACE OF RAILWAY CROSSINGS

(Prepared by the United States Department of Agriculture.)

What can be done when a community sets out to eliminate the menace of railroad grade crossings is shown by the plans for a federal road to be constructed in Alabama between Arden and Clayton. In a distance of about 25 miles the old road crossed the railroad 14 times. By good engineering 13 of these crossings have been eliminated, the remaining one being in the small town of Clio, where there are only three trains a day, and these move at slow speed as they approach the station.

Some months ago the bureau of public roads of the United States Department of Agriculture announced that grade crossings would be eliminated on all federal-aid highways wherever practicable. Officials of the bureau are receiving hearty co-operation from state highway departments and the general approval of the public.

It has been found possible to reroute many plans, keeping the road entirely on one side of the track or finding a suitable place where the road can cross beneath or above the track. In some states the highway department are having difficulty in inducing the railroad companies to share the cost of placing the highway above or under the track.

All on the Same Principle. Every form of lamp for use in mines is based on the design of Sir Humphry Davy, whose principle was that flames will not pass wire gauze.

Daily Service to PUT-IN-BAY and SANDUSKY

(On the Big Steamer Put-in-Bay)

Fastest service from a Steamer, Leave at 8:00 a.m. Put-in-Bay, Ohio, and return to Sandusky, Ohio, at 10:00 a.m. on the same day.
